elcome to Prince of Destruction (or POD), the first (publishable) game using our Multi-player Animated Role-playing System (MARS). It's over two years behind schedule, so we hope you enjoy it and send us money.

Minimum Requirements

Any Macintosh running System 7 with 3MB RAM available (you should be able to manage this with 4MB RAM and extensions off) capable of displaying 16 or 256 greys or colours.

If you have a machine that meets these requirements but will not run POD then please contact us and we will try to fix it.

Clicking on the button below takes you to the next chapter…
