

Registering New Versions

You paid to register an older version of Realmz, but now you've obtained an updated version that has a different serial number. What do you do?

- 1) Type 911 as the registration code.
- 2) Click the register button.
- 3) Type in the serial number of the version of Realmz you originally registered with us.
- 4) The game will now reset to your old serial number.
- 5) Type in the original registration code you received in return for your registration fee and click the register button.

If for some reason you cannot get this to work please contact us via e-mail at:
