SHAREWARE

If you use this game regularly (more than irregularly) then here comes the boring bit: this game is supposed to be SHAREWARE, but to be honest I don't really expect a penny for it, but if you could spare a penny (or more) I would be ever so grateful to have some financial compensation for my nights of endless toil and my parents' rage. Oh yes another point - this may come as the biggest shock to you (or it may not) - I am only 12 years old. So I don't think I have really done that badly in the end.

If you really cannot afford the slightest penny, I would welcome any (interesting) mail such as postcards etc. Oh yeah, there is another way you could "Pay Me" - if you live in the UK let me have or borrow any used books (or electronic data) on programming in C (including "Inside Macintosh" by Apple), as I am searching for used copies.

ANY OF THE ABOVE WOULD REALLY ENCOURAGE ME TO WRITE MORE, AND IMPROVE DAK!!!
