

Special Settings

- You may want to change the display font, click on the rounded button :

and choose the font you want:

- In the Special menu, you can change the appellation of "true" and "false". So it allows you to use other words than "true" or "false" in the true-false questions (i.e. you need to make a quiz in Spanish)

that function is working while creating a quiz:

where the "true" and "false" can be replaced with the command above.
