Click the this to view, add, or change the list of ratings systems installed on this computer.

Click this to change the supervisor password.

Provides a space for you to type the new supervisor password.

Note

The supervisor password is case-sensitive. Before you type the password, make sure the CAPS LOCK key is not on.

Determines whether users who know the supervisor password can type the password in order to view Web pages containing potentially objectionable material.

If this box is clear, nobody except the supervisor will be able to view such Web pages on this computer.

Provides a space for you to type your old password. For security, asterisks will appear instead of what you type.

Provides a space for you to type a new password. For security, asterisks (*) will appear as you type.

Provides a space for you to type the password again. If what you type matches what you typed in the New Password box, Windows changes the password. For security, asterisks (*) will appear as you type.

Lists the rating systems installed on this computer.

Click this to add a rating system to the list.

Removes the selected rating system from the list.

Provides a space for you to type a new supervisor password. For security, asterisks (*) will appear as you type.

Provides a space to type the name of a ratings bureau.

Click this to display the Web page for your current ratings provider.

To set up ratings for your computer

- 1 Click here  to display Internet properties.
- 2 Click the Ratings tab, and then click Set Ratings.
- 3 If a supervisor password has not already been set up for your computer, Windows prompts you to create one. If one has been set up, Windows prompts you to type it.
- 4 On the Internet Ratings tab, click a category in the list, and then adjust the Rating slider to set the limits you want to use. Repeat this process with each category you want to limit.

Tips

- Not all Web pages are rated. To allow people to look at Web pages that are not rated, click the General tab, and then select the Users Can See Unrated Sites check box.
- You can allow people to type the supervisor password in order to look at Web pages that are forbidden according to the rating limits you have set up. For more information, click Related Topics.
