

iF/A-18E Carrier Strike Fighter

Think you're an ace? Well, now you can put your money where your mouth is by proving you're top gun with iF/A-18E Carrier Strike Fighter, the latest combat simulation by Interactive Magic. This time, you're strapped into the cockpit of the Super Hornet, the US Navy's successor to the venerable Hornet strike fighter. And that cockpit is not just for looks, as every switch and button can be clicked on for precision control in the heat of battle. It also features iMagic's TALON Campaign System for infinite dynamic-campaign mission generation, and its DEMON Terrain System, which brings you photorealistic terrain using satellite imagery.

System Requirements:

P166
