Heretic II

Unlike the original Heretic, Heretic II is a third-person action game (based on the Quake II engine). Quest through a fantasy world armed with spells, magic weapons, and your wits to find a cure for the plague that's . . . well, plaguing your land.

System Requirements:
P166 (with hardware acceleration), P233 (without)
DirectX 6.0
32MB RAM
62MB HD

Developer/Publisher: Activision
