

Trap Shooting PRO

Copyright ©1995 Diversions Software

Get ready for the Trap Shooting experience of your life...

Trap Shooting PRO is the sequel to the Trap Shooting for Windows.

This new version contains a 180 degree viewable area, frame animated clay pigeons, and improved sound effects, all of which add up to the hottest arcade shooter for Windows and Windows95 !

IMPORTANT STUFF FIRST...

Due to the nature of the animation in the game, a powerful PC is recommended for full enjoyment of the game.

A Small Font video driver must be used in order for the game to start. Consult your video card documentation for information on Small Font drivers. A 256 color or higher video driver is also a requirement (if everything looks grey, then a 16 color driver is probably loaded).

Game Play

Interface

Trap Shooting PRO utilizes a very simple gaming interface. Everything you need is just a click away.

- To shoot a Clay Pigeon, just aim and click the Left Mouse Button.
- To scroll your point of view, just move the mouse as you normally would.

You will become adept at scrolling and firing at the same time.

Once a bird has been hit, you can Right-Click to call for another. If you miss a target, wait for it to drop to the ground before calling the next bird.

Game Style

The game contains 2 options for play, 1 Target, and 2 Target (Registered version only).

In the non-registered version, the game is limited to 7 minutes of play.

[Back...](#)

Game Options

Click on Options to open the Options interface. From here, you can select the style of game, as well as various interface settings.

Select either Two Bird (Registered version only), or One Bird mode for the style of game desired .

Select Direct, or Interpreted mode of control. Interpreted is easier to use with a mouse, Direct may be easier with a track ball. The choice is yours.

Adjust the Gun Sensitivity with the arrowed button. This adjusts the speed of gun tracking.

Select the difficulty level of play, from Easy to Hard. The angle and velocity of the birds will become more difficult at higher settings.

You can select from Yellow, Red, or Dark Red targets. The Random setting will select colors randomly for the targets.

To begin playing Trap Shooting PRO, simply click on the Start Button. pressing the ESC key will end a round, and return your cursor.

Registration Information

The Shareware Story...

Shareware is software distributed by authors like myself, to fun, game hungry consumers like yourself. I do so because I enjoy sharing my creations with others. Sales of fun, enjoyable software like Trap Shooting PRO are my source of income. If you enjoy playing it, go ahead and pay for it. That way, I can continue to drink caffeine loaded soda, and crank out more titles for the coming years (don't worry, there's some neat stuff headed your way...).

The law also states that if you want to use it for more than 30 days, you have to pay for it... That's the government for you, but it does allow me to pay my bills...

Benefits of Registering

- Ability to fire on 2 birds at once.
- Unlimited game play. No 5 minute time limit.

Trap Shooting PRO can be registered ONLINE with CompuServe. Just GO SWREG and search for keywords 'Diversions', and 'Trap Shooting PRO'. The registration fee will be added to your monthly CompuServe bill. It's that easy.

Keyboard Commands

G - Will toggle between Direct and Interpreted sighting modes.

S - Will slow down the game. This may be necessary on Pentium systems. You can press the S key 3 times to decrease the speed of the game.

+and - Will increase Gun Tracking sensitivity while playing.

ESC - Will return your mouse cursor to you (same as clicking on the beer cans).

System Requirements

Trap Shooting PRO recommendations.

Trap Shooting PRO minimum requirement:

486 DX33 Processor
MS Windows 3.1.
4MB RAM
256 color 640x480 VGA

I recommend the following for best performance:

Pentium processor (right... what else is new..)
MS Windows 3.11, Windows for Workgroups 3.11 or Windows 95
Enhanced Mode
8+ MB RAM
256 color 640x480 Accelerated Graphics Card
MS Windows compatible sound card (turned way up!)

If you have any hardware problems with Trap Shooting PRO, please contact Diversions Software at the following locations.

Void Pirates

A Multimedia Strategy Adventure of Piracy on the Highest of Seas.
Available late 95 on CDROM for Windows and Windows95.
Look for VPDEMO.EXE on any online service.

Plus a whole bunch of cool shareware games about shooting things with the 'PRO' moniker (Microsoft grabbed the '95 thing, so 'PRO' will have to do).

- **Arcade Gallery PRO**
Realistic Shooting Gallery fun for the whole family. No blood or gore, just dozens of interesting animated targets to blow away.
- **STARGunner PRO**
Sequel to the award winning STARGunner. Hair raising 3D space combat simulation.
- **Turret**
3D Tank Combat set in the not-to-distant future.

Check all the normal online services and BBS's for these upcoming titles from Diversions Software.
