

The following message contains general information on the Information Access product line:

- * A table showing which server products are needed for each database.
- * The Information Access data sheet, which explains the product at a high level, in text format. A hard copy can be obtain via the LDC, part number 5091-5630E. An AMI PRO 2.0 copy can be obtained via the CCSY Hotline topic "IASN".
- * How to obtain Information Access software for pilots and demo's.
- * Ordering Information Access
- * HPIMAGE/SQL Promotion Information
- * What's new with A.06.00 Information Access for Windows
- * Information on Support Products
- * Mapping between pre Aug.1, 1993 products and post Aug. 1, 1993 products

Internal Use/Demo's/Pilots

To get the latest information on obtaining and ordering Information Access for internal HP use, field demonstrations, pilots, etc. Send a message (any title) to:

Via HP Desk - HPINFOACCESS/HP5200

Via UNIX Mail - hpinfoaccess/hp5200@hprdash.rose.hp.com

Sending this message will automatially "enroll" you in the Information Access Alpha program. Follow up messages will indicate further Alpha activities.

Server Software Information

Here is a brief description explaining which servers are needed for each database type.

Database Type	Platform	Server & Product Number
Paradox, dBASE, R:Base	DOS	No server needed, only client
IMAGE, *MPE Files	MPE V	IA Server/V - B3161A
IMAGE, *MPE Files	MPE iX	IA Server/iX B3160A
ALLBASE, *ORACLE, INGRES, IMAGE/SQL	MPE iX	IA SQL/iX B3162A
ALLBASE, *ORACLE, INGRES, INFORMIX, PROGRESS	HP-UX	IA SQL/UX B3116A
SYBASE	HP-UX	Non HP SYBASE Server
Microsoft SQL Server	OS/2	Non HP Microsoft SQL Server
Gupta's SQLBase	OS/2	Non HP Gupta SQL Base
Red Brick's Warehouse	HP-UX	Non HP Red Brick Warehouse Server
IBI/EDA	HP-UX	Non HP EDA Server
ODBC	Many	Many
