System Support Option prices for A1883A and A1884A rack products are based on the number of DTC options ordered. Select System Support Options as follows:

1. Determine the number of DTC options.

2. Determine the desired warranty response time (next-day, 4-hour, 24 x 7).

3. Select the appropriate option from the matrix. The XX in the matrix identify valid warranty response/DTC option combinations. Select the System Support Option that appears in the row containing XX in both the "desired response time" and "number of options" cells. See the following example:

EXAMPLE:
You are ordering the A1883A rack with two 16-port DTCs (Opt. 316). You want next-day warranty response.

A. Number of DTC options = 2.

B. Warranty response = next-day.

C. Select your System Support Option. XX appears in both the "next-day" and "2 or 3 product options" columns in the row labeled "0SC". Order Opt. 0SC to upgrade the warranty to next-day response.
