STORYMAKER+ Shareware Program by Elson Embry

If you don't have the STORYMAKER+ shareware program you can obtain a copy through your local shareware vendor, BBS, or include \$2.00 to cover shipping and handling and Billy Bear will send you the current version. When ordering this program from us, make sure you let us know if you want the EGA or VGA version of Storymaker+.

TO ORDER BILLY BEAR ...DAY DREAM
Please print the file REGISTER.DOC. (for foreign orders - US funds, drawn on US Banks) To order other storybooks in the Billy Bear Collection print the ORDER.DOC.

Make checks payable to Loraine Wauer.

INITIALIZING THE PROGRAM

If installing from a floppy disk with the auto-install files:

Insert disk in drive A: (or B:)

```
Type A:      Enter
Type GOBILLY  Enter
```

To run storybook (if installed at subdirectory SDREAM):

```
Type CD \SDREAM  Enter
Type SDREAM      Enter
```

TO HEAR THE .CMF MUSIC

To run .CMF music, a Sound Blaster sound card - driver SBFMDRV.COM must be in resident before running the storybook.

Check your Sound Blaster directory [example used - SB], to see if there is SBFMDRV.COM listed. To check the directory do the following - If your Sound Blaster [SB] is in the C: drive

```
Type C:      Enter
Type CD\SB    Enter
Type DIR      Enter
Now look for SBFMDRV.COM
```

If you see this listed, go back to the storybook directory. We have made a BB.BAT file which will install the sound driver for and also run the storybook:

```
Type C:      Enter
Type CD\SDREAM  Enter
```

Type BBDD Enter

Now when you open the storybook, you should hear .CMF music.

If you don't hear the .CMF music, the drive and/or directory information may need to be changed. You need a text editor utility to edit the file (later versions of DOS has the EDIT utility, or if you have Windows, use its Notepad utility).

For example, if you have EDIT:

```
Type C:            Enter
Type CD\SDREAM    Enter
Type EDIT BBDD.BAT    Enter
```

The DOS editor will now come on your screen. The DDBB.BAT is set to find the SB\SBFMDRV on the C: drive, if your Sound Blaster [SB] is on another drive, change the C: to that drive.

Example: BB.BAT as distributed reads:

```
C:\SB\SBFMDRV
SDREAM
C:\SB\SBFMDRV /U
```

My second drive is D:, so I would change it to:

```
D:\SB\SBFMDRV
SDREAM
D:\SB\SBFMDRV /U
```

Click on SAVE to save your changes.

Read your Sound Blaster book for more information if you still can not hear the .CMF music in the storybook.

WINDOW'S ICON INFO

An ICON [DREAM.ICO] is included for playing Day Dream in Windows ...but I recommend reading the storybook in DOS. When I run the storybooks in Windows - the animations go crazy (kinda funny to watch) and the text-to-speech runs slow, sometimes hanging up. I understand that there are programs out there that allow you to use Windows for DOS programs, that is why I have included the DREAM.ICO.

IF YOU ENJOYED OR DID NOT ENJOY THE HUMAN VOICE STORY PLEASE LET US KNOW. YOUR INPUT IS VERY HELPFUL IN OUR FUTURE STORYBOOKS. THANK YOU!

****IF YOU ARE READING THE .DOC FILES IN STORYMAKER+ READER, THEY MAY APPEAR TO BE OFF LINE... THEY WILL PRINT FINE. IF YOU READ THE FILES IN THE DOS EDITOR THEY WILL BE EASIER TO READ FOR SOME OF THE DOC FILES.****
