Coins Played

The *Coins Played* display shows the number of coins deposited.

Spin Button

The *Spin* button spins the wheels.

Bet One Button

The *Bet One* button will deposit one coin.

Slot Display

This is the slot display. When the arm is pulled or the spin button is pushed they will spin. If they stop in a combination shown on the payoff wheel you win.

Bet Max Button

The *Bet Max* button will deposit three coins and spin the wheels.

Coins Won

The *Coins Won* display shows the number of coins won on the last turn.

Insert Coin Slot

Click on the *Insert Coin Slot* with the left mouse button to deposit one coin. It is the same as the Bet One button.

Speed Setting

The speed setting allows the spinning speed of the slot machine barrels to be adjusted. The first time Cherry Fever is run it will automatically select a speed setting based on the computers performance.

The speed setting can be manually adjusted for personal preference, however, this feature should be used with caution. Too high of a setting can cause the computer to appear to "lock up" because the barrels are spinning so slowly.
