## MEN IN BLACK

### RE: UPDATE DISK FOR MEN IN BLACK (PC CD ROM WIN95)

Please find enclosed a floppy disk containing the updated files for Men In Black PC. Follow these instructions to run the game properly.

- Install the game onto the computer using the setup program on the CD Rom.
- Open the Men In Black folder on the hard drive of your computer.
- Insert the floppy disk into the drive.
- Highlight and copy the Men In Black file from the floppy disk into the Men In Black folder on your hard drive, overwriting the existing file.

You should now be able to run the Men In Black game without any further problems. If you require any further assistance, please contact us again at the Gremlin helpdesk.
