Welcome to AutoCat...

This window might appear sometimes when you launch AutoCat to remember you that you didn't register it yet...

To register your copy of AutoCat, please enter your name and your registration code below and click the Register button. If you do not have a serial number yet, click the 'Not Yet' button to continue.

To obtain a serial number, use the Register application that should have come with this copy of AutoCat, or go to the Kagi online ordering web page at <http://order.kagi.com/?OL>.

To download the latest version of AutoCat, and to get the latest news, visit the AutoCat home page at <http://tubular.net/autocat/>.

Registering using the Register program

AutoCat has the following pricing:
- A Single User License costs $15.
- A Site License costs $150 and covers all locations for your organization within a 160 kilometer radius of your site (100 miles). One big advantage of a Site License is that you do not need to keep track of how many people at your site are using the software.
- A World-Wide License costs $750 and it covers all locations for your organization on the planet earth.

Paying for AutoCat is fairly simple. pen the Register program that accompanies AutoCat. Enter your name, your email address, and the number of single user licenses you desire (or Site or World-Wide licenses). Save or Copy or Print the data from the Register program and send the data and payment to Kagi.

If paying with Credit Card or First Virtual, you can email or fax the data to Kagi. Their email address is <sales@kagi.com> and their fax number is +1 510 652-6589.

You can either copy the data from Register and paste into the body of an email message or you can save the data to a file and you can attach that file to an email message. There is no need to compress the data file, it's already pretty small. If you have a fax modem, just print the data to the Kagi fax number.

Payments sent via email are processed within 3 to 4 days. You will receive an email acknowledgement when it is processed. Payments sent via fax take up to 10 days and if you provide a correct internet email address you will receive an email acknowledgement.

If you are paying with Cash or USD cheque you should print the data using the Register application and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-OL
Berkeley, California 94709-1405
USA

You can pay with a wide variety of cash from different countries but at present if you pay via cheque, it must be a cheque drawn in US Dollars. Kagi cannot accept cheques in other currencies, the conversion rate for non-USD cheques is around USD 15 per cheque and that is just not practical.

If you have a purchasing department, you can enter all the data into the Register program and then select Invoice as your payment method. Print three copies of the form and send it to your accounts payable people. You might want to highlight the line that mentions that they must include a copy of the form with their payment.

Kagi can not invoice your company, you need to generate the invoice and handle all the paperwork on your end.

Please do not fax or email payment forms that indicate Cash, Cheque or Invoice as the payment method. Without the payment, the form cannot be processed.

Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.

When you pay, you will be sent a copy of your serial number by Kagi. If you do not have an email address, please enter your complete postal address and please remember, Kagi do not know what country you live in so please enter that into the postal address also.

If you do not have an email address you have to select the Postcard Receipt so that Kagi can inform you of your registration code. Kagi transmits the registration codes via email and paid postcard receipt only.

Registering Online

If you want to register over the Internet using your credit card,   click the the 'Register online...' button. This will open your web browser at the Kagi page automatically.

If you don't have Internet Config installed, or it can't find your web browser, you can go there manually by entering the following URL:

<http://order.kagi.com/?OL>

Once there, follow the instructions given to register. If your browser supports it, you might want to use the alternative secure ordering page - there is a link at the top of the page. Once registered, you should get an email message from Kagi confirming your order within 3 to 4 days.

Happy AutoCataloging!
