System Requirements

Jewelbox™ will run on any Mac II series computer that has 8-bit (256 color) capability and at least a 13" color monitor.   It also requires at least 2 megabytes of RAM and System 6.0.5 or later (6.0.7 or   7.0 if you want the soundtrack to play).

It has been tested on a Mac IIci, IIsi, IIfx, Quadra 700 and SE/30 running System 6.0.5, 6.0.7, 7.0, and 7.0.1.
