- If you do not have the PGP software and would like to know more about it, please refer to the address <http://www.pegasus.esprit.ec.org/people/arne/pgp.html>

- Music and computer programming are my favourite hobbies and I always enjoy playing my keyboard as well as trying new things with my computer. This is my first shareware program after years of doing computer programming. Now I wish to publish my songs that I have written in the last six to seven years. If you are a music publisher and you need new fresh songs, or if you need a song for anything (maybe for your company's commercials), I have many songs that might suit you (most of them are better than PUTRI2.MID). Please feel free to contact me on the address below:
