

## **ORDERING a license to use WizCat/PRO Disk & CD-ROM Catalog Version 4.2**

Two types of licenses are available : the one for personal use, and the multi-workstation license for company use (refer to WIZCAT.HLP for more information on site licenses).

Please use the attached orderform to order your personal license to use WizCat/PRO 4.2.

### **License for personal use :**

This license can be transferred freely from machine to machine as long as there is no chance that it is ever in use on more than one machine.

You are encouraged to share your evaluation copy of WizCat, but you may not distribute registered copies or registration numbers under any circumstance.

The registration number (which disables the registration reminders, and that allows you to use WizCat/PRO beyond it's evaluation period) will be sent to you immediately after I've received the registration-fee.

Please observe the following when ordering a personal license :

**- American, Canadian, Australian etc. checks/cheques can not be accepted** because of huge bank handling-fees.

So, if you are not a European user : please don't send a check ; all I can do with it is tear it up.

Consider sending plain cash (dollar bills), or register using your credit card by calling the Public software Library (see WIZCAT.HLP).

- When you register WizCat/PRO the author sends you a license plus registration number only ; a disk, a 4-color glossy manual or other unnecessary stuff is NOT included (and not available) !

Please complete the form below and send it to :
