Shareware Information

WAM+ is NOT free or in the public domain.   Even if you obtained it in a collection of shareware on a CD, bought it in a supermarket, or sent for it from a catalog, **it is not paid for until it is registered**.   You have only paid the distributor, not the author, and you are not a registered user.   You may copy and distribute it freely but should you find it useful and wish to use it beyond a <u>reasonable</u> trial period you are both legally and morally obliged to pay the license fee

Shareware <u>distribution</u> gives users a chance to try software before buying it. If you try a shareware program and continue using it, you are expected to register.   The essence of "user-supported" software is to provide personal computer users with inexpensive, high quality software while providing incentive for programmers to continue development of new products.

The registration fee will license one copy for use on any one computer at any one time.   You must treat this software "just like a book".   By this is meant that this software may be used by any number of people, and may be freely moved from one computer location to another, *as long as there is no possibility of it being used at one location while it's being used at another* - just as a book cannot be read by two different persons at the same time.

For information on registering through CompuServe's Software Registration Service see <u>how to order</u>.

You may register by printing out a <u>registration form</u> and mailing it, along with your check or money order to <u>Equinox Software</u>.

Upgrades **on disk** will be provided in the U.S. and Canada for $5.00 (+ CA tax if applicable).   They will, however, be exactly the same as any upgrades available on the bulletin boards.

Your ID number is based on your name.   You must enter your name and ID number EXACTLY as you received them.   The name is case-sensitive.   If your name is not spelled the way you would like to see it on the "cover" of the "book", please contact the author.

Why Register?

The benefits of registering WAM+ are:

The "beg" screens will not pop up any more.

The time limit restriction will be removed.

You will receive support via CompuServe, the Internet, or U.S. Postal Service.   By "support" we mean help with installation difficulties, bugs (if any), or any incompatibilities between the software and your system.   See <u>contacting the author</u>.

Minor upgrades such as bug fixes or the addition of new categories are free if the program is <u>downloaded</u>.   Registered users will be informed of any **major** changes to the program.

You will give me, and other programmers, incentive to write more inexpensive software like this.

Best of all, you will not have to hide the program in shame from your friends because the words "**UNREGISTERED SHAREWARE**" appear on the "cover" of the "book".   Instead, **your very own name** will be **proudly displayed** there **in beautiful blue script!**   <u>Click here for example.</u>

As far as we can tell, the CompuServe Software Registration service makes no distinction between whether you need a disk or not.   There seems to be no way to charge different rates to those who wish a copy of the software on disk and those who don't.   The zip file, WAM14.ZIP, contains exactly what is on the disk. Since most people won't need a copy on disk of what they already have, we are charging only the registration fee, and will **not** be sending a disk even though SWREG asks you about disk size.

SWREG doesn't deal with discounts for more than one copy of the software either.   Equinox Software **does** offer price breaks for multiple copies so we suggest that you use this order form for other than single copies.

Ordering information

Ordering by Compuserve Software Registration Service:
If you have a CompuServe account, you can register on-line. Simply type GO SWREG and follow the menu prompts. Enter the ID number **5337** when prompted. The $29.95 (plus CA tax if applicable) will be charged to your CompuServe account and we will inform you of your registration number by E-Mail; usually within 24 hours. NOTE: If you wish to order a **disk** you must order by credit card or use the order form.
