Vendor Warranty.

Without regard to how you obtained this software, you may NOT sell or INCLUDE copies of this Shareware product on a CD-ROM or other type of package produced by any user group, commercial library, or any profit or non-profit making organisation; nor may it be distributed with or used as an incentive to buy any other product, without obtaining the express written permission of the author Stephen Cullen. **This is to help ensure that you will be regularly supplied with updates to the program as an when new releases become available.**

This software may not be sold for more than £5, or distributed if the date on the DATAREC.EXE file it is more than 18 months old.

The program and location of files on the disk MUST not be modified or adapted in any way. Individual files or groups of files may not be sold separately. Additional files may be added to disks containing this software, however this software may not be integrated into or included as a part of any other software.

Finally... This software should only be represented as Shareware, with the shareware concept clearly explained in any ad or catalogue in which TapeMate is listed. It should also be made clear that with shareware an addition registration fee is required, if users continue to use the software.

Please contact the author if you have any special needs or specific requirements you wish to discuss.

Internet Registration.

To speed up the registration process you can now register via the Internet. For further information on how to register in this way please visit my web page at:
