 *** Welcome to Kali! ***
 Got the latest Kali95? 1.58! Get it today:
<http://www.kalinet/software/win95.html>
 Patch for 1.57 to 1.58: <ftp://ftp.kalinet/pub/kali/p157-158.exe>

WARNING!!!
 We have had a serious problem recently with users offering hacks |
 called Back Orifice (BO) and Netbus disguised as everything |
 from patches to cracks to games and just about anything else |
 imaginable. If you download and run these on your PC they will |
 allow hackers to access ANYTHING on your PC. They can delete |
 files, steal information, or cause your PC to do things without |
 your knowledge. Anyone caught offering either will get kicked |
 off Kali without any warning. Do not accept file offers unless |
 you have a virus checker that will detect these hacks and make |
 sure to check every download! See more information:
