

Type-Designer

Introduction

With Type-Designer you are able to design high-quality fonts in the Adobe Type 1 format. Type-Designer is developed for people who

- want to design Type at high quality,
- need special symbols, like mathematicians, chemists or multi linguists,
- want to improve the quality of existing fonts,
- just want to look how good fonts from various sources are,
- ...

System requirements

You will need a 80286 compatible computer, Windows 3.x and a mouse.

Also recommended are:

- a 80386 computer with Windows 3.1 running in enhanced mode for '386 PCs,
- a monitor-graphics card combination with a resolution of at least 800 * 600,
- the Adobe Type Manager 2.x.

Enclosed

The enclosed CommScript font (comsc____.pfb) is a high-quality font which will bring elegance to invitations, diplomas, or greeting cards (also very useful for mathematicians). You may use this font free of charge for your private use only.

The Demo font (demo____.pfb) shows samples of the Brush and Copper fonts which are enclosed in the purchased version.

Installation

Run the installation program `install.exe` from the Program Managers menu bar if you want the enclosed fonts to be automatically installed for use with Windows and Adobe Type Manager.

You can install these fonts also with the Adobe Type Managers Control Panel or directly change the `WIN.INI` or `ATM.INI` files.

Start of program

Select the option File Execute from the Program Managers menu bar and enter the name <path>\td.exe.

Or create an entry in one of the existing groups for Type-Designer, for that it can be started by mouse click.

Restriction of demo version

The only restriction of this demo version is, that you are not able to save your work.

Copyright

All enclosed software is developed under the Copyright laws of Germany. You may give a copy to anyone else, as long as you provide all files completely and unchanged.

The copyright holder will not be liable for any direct, indirect, consequential, or incidental damages arising out of the use of this software.

Pricing and Distribution

Type-Designer is available in German and English versions.

You can expect the following prices:

Germany:	198,-- DM
France:	500,-- FF
Other:	ca. 119,-- US\$

plus shipping and handling (ca. 10US\$).

Start of delivery will very likely be the first half of Nov. '92.

Dealers and Distributors are wellcome!
