## 1.2 Introduction

Introduction

Welcome to AMIL (Amiga Main Internet List).

---

This is (or at least tries to be) a full (???) listing of every (???) person - company - dealer - group - BBS - mailing list - newsgroup - zine related to the Amiga. Extra goodies include all Aminet sites and a lot of WWW Resources.

Let's try to make it clearer. This guide contains (1) the following :

#### 1. People/Persons.

That includes :

- Programmers/Coders
- Hardware/Software Designers
- Music/Gfx Artists
- Managers
- Producers

Additional information includes :

- Company working for/Group belonging to
- E-Mail address
- WWW address
- IRC Nickname & Channel
- Fidonet address
- Notes about the person
- Projects created

#### 2. Companies.

That includes :

- Hardware/Software Distribution Companies
- Hardware/Software Development Companies
- Software Houses
- Internet Service Providers

Additional information includes :

- E-Mail address
- FTP address
- WWW address
- Fidonet address
- Activities
- Products that are developed/distributed

#### 3. Dealers/Vendors.

That includes :

- Hardware/Software Dealers
- Hardware/Software Vendors

Additional information includes :

- E-Mail address
- FTP address
- WWW address
- Fidonet address
- Products that are distributed

#### 4. Groups/Teams.

That includes :

- Programming Groups/Teams
- Demo Groups/Teams
- Gfx/Sfx Studios

Additional information includes :

- E-Mail address
  - FTP address
  - WWW address
-

- Fidonet address
- Activities
- Projects created

5. BBS.

That includes all kinds of BBS dealing with Amiga.

Additional information includes :

- Sysop Name
- E-Mail address
- FTP address
- WWW address
- Telnet address
- Fidonet address
- Amiganet address
- Notes about the BBS
- Phone Lines (+ modem type)

6. Mailing Lists.

That includes all kinds of Mailing Lists/List Servers dealing with Amiga.

Additional information includes :

- E-Mail address
- (Un)Subscribe address
- (Un)Subscribe commands
- Mail address
- FTP address
- Notes about the mailing list

7. Newsgroups.

That includes all Usenet Newsgroups dealing with Amiga.

Additional information includes :

- Name of the newsgroup
- Notes about the newsgroup
- Moderator name/e-mail

8. Zines.

That includes Zines in electronic and "printed" form.

Additional information includes :

- E-Mail address
- WWW address
- Editor name/e-mail

9. Aminet Sites.

That includes all sites that mirror the whole (or part of) Aminet.

Additional information includes :

- Country
- Site name
- IP address
- Aminet path
- Number of files mirrored

10. WWW Resources.

That includes all WWW Pages containing info about Amiga.

Additional information includes :

- E-Mail address of Maintainer
  - WWW address
  - Notes about the Web Page
-

(1) : Numbers 1 - 10 are under improvement (See  
Comments  
) . Number 9  
is updated through pub/aminet/README. Ideas are always welcome.

#### NOTES

- I will try to upload a new version to Aminet every 2 months or so,  
as long as this list is maintained by me.

#### ATTENTION

-----

THIS VERSION IS HIGHLY INCOMPLETE

Tassos Hadjithomaoglou

## 1.3 Purpose

### Purpose

General purpose of this list is to provide the Amiga Community with information about every possible "PROJECT" (2) associated with this wonderful computer. That way, you (Amiga users) can contact the "PROJECT" immediately and :

- request misc information
- send thanks/(b|f)lames (i hope not the second)
- send corrections/additions/suggestions/improvements/comments
- get informed about various products
- exchange opinions

and many more i can't even think of.

(2) : The word "PROJECT" used here, refers to numbers 1 - 10 mentioned in introduction, and DOESN'T try to "underestimate" anyone of you. Therefore it has nothing to do with the field "Projects :" used in the actual list.

- HELP THE AMIGA COMMUNITY GROW -

---

## 1.4 Copyright-Distribution-Disclaimer

### Copyright

This document is Copyright © 1995-97 Tassos Hadjithomaoglou.

All rights reserved.

Some of the mentioned names or products may be copyrighted by companies or trademarks of companies.

### Distribution

This document may be freely distributed, provided that it is distributed in its original unmodified form. If you modify this document, you are not allowed to distribute it. If you really want to modify this document please contact the author first.

Of course every kind of donation (cards, books, hardware, software, and even money (?) etc.) is always welcome :)

### Disclaimer

The author of this document :

- is not responsible for any damage caused by the use of this document. It's all user's responsibility.
- is not responsible and makes no claims about the validity and correctness of information included in this document.
- does not necessarily endorse any of the information included in this document.

This document is provided for informational purposes only.

## 1.5 Comments

### Comments

This list cannot be expanded without the help of users/readers like you. So, if you have any additional information/corrections/suggestions, PLEASE send them to

me

.

Keep this in mind: before posting use the supplied

AMIL\_Search.rexx

script to check if the information you are about to post is ↔  
already

included in the current version of AMIL (maybe in a wrong section ?).

That way my job can be made a lot easier.

All

---

contributors  
will be credited with their email addresses, unless  
denied by them.

Information most needed is about :

- WWW addresses of Persons & Companies
- Companies & Groups
- BBS (E-Mail, Telnet addresses)
- Zines
- widely known programmers/artists

#### NOTES

- All submitted information can not be checked (fully) for it's validity and correctness.
- Contributors are requested (well, i can't force them) to submit information using the formats used in this document. That way i can more easily/frequently update this list. Use the supplied

AMIL\_Contrib.rexx  
script to guide you through your contribution.

- Please whenever possible use the english language.
- Any grammatical/spelling corrections in this list are also welcome (yu si, mai speling izent veri goud :-))))

## 1.6 Credits

#### Credits

AMIL.guide : main idea, written/designed by Tassos Hadjithomaoglou  
AMIL\_Search.rexx : written by Tassos Hadjithomaoglou  
AMIL\_Contrib.rexx : written by Tassos Hadjithomaoglou

A lot of WWW info taken from The Amiga Web Directory  
(Kevin, I hope you don't mind...:-))

A lot of BBS info taken from Amiga Report  
(Jason, I hope you don't mind too...:-))

Aminet Sites info taken from pub/aminet/README  
(Urban, I hope you don't mind toooo...:-))

A lot of Mailing Lists info taken from IAM's homepage  
(Dale, I hope you don't mind toooooo...:-))

## Modula-2 Includes for the ums.library

Sascha "SieGeL" Pfalz

Group : tRSi/X-iNNOVATION

E-Mail : siegel@deadline.snafu.de

Projects : For Amiex :

mEGA-vIEW, CD-Server, aSKII-rEQUEST, World-Clock, nEW-FLAG,  
Order It, Soft-Del, U-Stat, SysOp-DL, NF\_Config, Registrator,  
vOTE iT!, PcToAmiex-Convert (Dir-Converter)

For Fame :

mEGA-vIEW, CD-Server, aSKII-rEQUEST, World-Clock, nEW-FLAG,  
lASTCALLERS, mULTI-tOP, Order It, Page-Master, Soft-Del,  
U-Stat, Zippy-Search, SysOp-DL, NF\_Config, MUI User-Editor,  
Registrator, vOTE iT!, Door-Help,  
User-convert (converts AMIEX user.data ->FAME)  
mULTI-cHECK (archive-checker),  
BBS-vIEW (text-viewer for BBS-ANSIS),  
MUI mEGA-vIEW (Universal Viewer), Viper-Stats (Stats for Viper)

Martin Pfingstl

E-Mail : pfingstl@informatik.tu-muenchen.de

Projects : ChaosPro

Carsten Pluntke

E-Mail : Carsten\_Pluntke@ouzonix.bo.open.de

Projects : ZVT (ZyXELVoiceTool), AMInd2Db

Stefan Proels

E-Mail : proels@fmi.uni-passau.de

Projects : serlog

Pierre Radestock

E-Mail : Sysop@tek.dontpanic.sub.org

Projects : for AmBoS :

UsEd (UserEditor)

Martin Ramsch

E-Mail : ramsch@forwiss.uni-passau.de

Projects : Backup

Heiko Rath

E-Mail : hr@brewhr.swb.de

Projects : ListScanner, PlayCDDA, SCSIUtil

Michael Rausch

E-Mail : linux@uni-koblenz.de

rausch@uni-koblenz.de

Fidonet : 2:245/5618.3

Projects : aMiPEG

Alexander Rawass

Projects : XSize (2.0+)

---

Franz-Josef Reichert

E-Mail : fjrei@kbsaar.saar.de

Projects : JukeBox, QuietSCSI

Stefan Reisner

E-Mail : sr@ph-cip.uni-koeln.de

Projects : dialoglib, VCB (Virtual Coordinate Box BOOPSI class)

Markus Dieter Reschke

E-Mail : madires@thecat.lahn.de

Projects : UUCP2TD

Detlef Riekenberg

Fidonet : 2:241/78.18

Projects : FDtoM, ViewIFF (Picasso IFF Viewer)

Guenther Roehrich

E-Mail : Guenther@studbox.uni-stuttgart.de

cipgr201@indcipl.ind.e-technik.uni-stuttgart.de

Projects : jpegAGA, ppm2AGA, f2c (Amiga port), P2C (Amiga port),  
StackCheck

Bernd Roggendorf

E-Mail : roggen@vertico.insider.sub.de

Projects : for AmBoS :  
LabyKill (doorgame)

Engelbert Roidl

E-Mail : engelbert.roidl@extern.uni-regensburg.de

Projects : Dope

Detlef Romanowski

E-Mail : det@geowiss.uni-hamburg.de

Projects : MagIconSort

Christian von Roques

E-Mail : roques@pond.sub.org

Notes : Current maintainer of the XPK-stuff

Projects : xpkFAST.library, xpkFEAL.library

Uwe Rosenkranz

E-Mail : usp@nasmus.north.de

USP@nasmus.ohz.north.de

Projects : chat.library  
for AmBoS :  
PlanetWar (game)

Michael Roth

E-Mail : mroth@inlet.lake.de

Fidonet : 2:246/8100.14

Projects : MUI23\_Autodocs

Tim Ruehsen

E-Mail : ruehsen@ifm.uni-hamburg.de

Projects : ira (680x0 disassembler)

---

Christian Ruetgers

E-Mail : chr@quack.westfalen.de  
Projects : iso2html  
For UMS :  
    UMS Maus, UFM (mailserver)

Oliver Rummeyer

E-Mail : oliver@rumor.rv.sub.org  
Projects : RO

Stefan Ruppert

E-Mail : ruppert@vs3.informatik.fh-wiesbaden.de  
    ruppert@gundel.zdv.uni-mainz.de  
Projects : Binary.Datatype, man.datatype, cli.datatype, textdtpatch,  
    makedoc, ExtReadArgs, c2man (Amiga port), XRef-System, XRefAPI

Giuseppe Sacco

E-Mail : inri%pisaug.adsp.sub.org@cbmvax.cbm.commodore.com  
Projects : DCCInline, ZeroUno

Metin Savignano

E-Mail : metin@stepout.tynet.sub.org  
Projects : Idefix

Christian Schaeffer

E-Mail : automan@doom.gun.de  
Projects : for AmBoS :  
    AmBoS-Birthday, FileTool, Magic4 (game),  
    Mastermind (doorgame), Pipeline (game), ShowANSI,  
    Sokoban (game), Umfrage, UserAlter, UserEditor, Wall,

Thomas Schaefer

## 1.40 Companies

### Companies

ACID software  
E-Mail : acid@iconz.co.nz  
Activities : Software Development & Distribution  
Products : BlitzBasic, Blitz3D, Gloom, Blitz-Jaguar

ALLDATA  
E-Mail : ronald@noblehouse.xs4all.nl (Ronald van Eijck)  
Activities : Software Development  
Hardware/Software Distribution  
Products : ALLert information system,  
Custom vidiwall control software,  
Custom gameshow control software,  
(f.i. 'Postcodebingo', 'Quinto', 'Love is..')

Almathera Systems Limited  
E-Mail : almathera@cix.compulink.co.uk  
jralph@cix.compulink.co.uk (Jolyon Ralph)  
Activities : Software Development & Distribution  
Products : Photogenics, Video Creator CD

Amiga Library Services (North American Distribution)  
E-Mail : info@amigalib.com  
Activities : Software Distribution  
Products : Light Works CD, Fresh Fonts CD-ROM

Amiga Technologies (AT)  
E-Mail : info@amiga-tech.de  
gbo@amiga.de (Gilles Bourdin)  
peterk@mail.Amiga.de (Dr. P. Kittel)  
WWW : <http://www.Amiga.de>  
Activities : Rebirth of Amiga  
Products : Amiga Series of Computers, Walker

Amiga Video Solutions, Inc.  
E-Mail : wohno001@maroon.tc.umn.edu  
WWW : <http://www.winternet.com/~avs/>  
Activities : Video Hardware/Software Development  
Products : ?

## Ami-Trix Development

E-Mail : sales@amitrix.com  
          decurrie@freenet.edmonton.ab.ca (Dale Currie)  
WWW : <http://nyquist.ee.ualberta.ca/~ewaniu/amitrix.html>  
Activities : Software/Hardware Development & Distribution  
          North American Distributor for AmigaLink Network Package  
          South American Distributor for AmigaLink Network Package  
          UK Distributor for the AmigaLink Networking Package  
          VAR bundling IAM's Envoy2.0 with AmigaLink Package  
          Canadian Dealer for Quantum Hard Drives  
          OEM of various Amiga expansion hardware  
Products : CD-RAM, SCSI-TV (CDTV SCSI hard drive controller),  
          SCSI-TV570 (A570 SCSI hard drive controller),  
          Amiga-Link (peer to peer networking via the floppy port)

## Asimware Innovations Inc.

E-Mail : info@asimware.com  
          reeves@cujo.icom.ca (Paul Reeves)  
FTP : asimware.com  
Activities : Software Development & Distribution  
Products : AsimCDFS (Amiga CD filesystem),  
          MasterISO (CD-ROM Writing Software)  
          PhotoCD Manager CD32  
          Texture Heaven CD 1 & 2

## AugmenTek

## Skynet BBS

E-Mail : PaulB@froghall.powernet.co.uk (Paul Brown)  
          PaulB@intex.powernet.co.uk  
Notes : Specialises in only quality public domain/shareware programs  
          and is run by a friendly mad sysop, who has been with the Amiga  
          since the very beginning. We offer technical help to all users  
          who need help in configuring various programs e.g. amitcp etc.  
          Skynet is run totally with the amiga user in mind and we aim to  
          please both the 'amiga nutcase' and any newcomers to the Amiga.  
          Soon to be implemented are various conferences for online aminet  
          CD's and hopefully after the Amiga show in London a huge hard

drive :) I also do a lot of graphics work and my job (working for a daily newspaper, entails all sorts of graphics/typesetting etc.

NOTES

- Use your favorite mail program to send the file T:AMIL\_Contrib.txt to me. (The email address is <chatasos@cs.teiath.gr>)
- Use the supplied AMIL\_Contrib\_YAM.rexx script to send the file T:AMIL\_Contrib.txt to me using YAM by M. Beck.

## 1.99 HTML Version

HTML Version

There is a HTML version of AMIL available for everyone wishing to put it in his/her WWW site, or just use it with a WWW browser.

Contact

me

---

if you want to get this version.

If there are enough requests I'll upload it on Aminet. (AMIL\_1435 is already on Aminet - docs/hyper/amil\_1435\_html.lha)

As an extra bonus it uses the following format :

- Clicking on an URL (http:, mailto:, ftp:, telnet:, news:, etc.) connects you using the appropriate protocol/service to that address. YES!!! Amiga EVERYTHING is just one mouseclick away !!!
- More will be added soon...  
Anyone willing to help with the search/contrib function?  
I have very little knowledge on the cgi-bin programming.

The HTML Version of AMIL is already (?) available in the IAS HomePage <<http://falcon.cc.ukans.edu/~dangermo/IAUG/>>.

#### NOTES

- The HTML version was primarily created with Heddley and then heavily modified using my own ARExx scripts.

## 1.100 Explanations

### Explanations

#### People/Persons

- The list is sorted alphabetically firstly by Country code (ISO 3166) and secondly by Person's lastname.  
That ofcourse doesn't mean that a person with an address like xxx.org or xxx.com or xxx.net lives to United States.  
Any corrections refering to this one are welcome.
- Everything that comes after a person's name and is enclosed in (), "", '' usually refers to person's code/nick-name.
- The meaning of fields is :  
  
Company : This is the Company which the person works for,  
Group : or the Group where he/she belongs to.  
E-Mail : This is the E-Mail address you should use if you want to contact the person for any reason.  
WWW : This is the WWW address of the person. Point any WWW browser to this address in order to access his/her pages.  
IRC : This is the nickname used by this person on IRC. Also the channel (preceded by the symbol #) where he/she can be found on, is included. A @ after the nickname means that this person is an operator on the mentioned channel.  
Fidonet : This is the Fidonet address of the person.  
Notes : These are special notes about the person. Possible entries

include sysops, authors of standards, producers, gfx/sfx artists, etc.

Projects : These are the projects created by the person. If you want to refer to a specific project (which is followed by an address enclosed in <>) then you should use that address instead of the general one.

### Companies

- The list is sorted alphabetically by Company name.

- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the Company for any reason. Note that usually this address refers to the president of the Company (the name of the person the address is referring to is enclosed in ()).

FTP : This is the FTP address of the Company. Use this address in order to access the Company's FTP site.

WWW : This is the WWW address of the Company. Point any WWW browser to this address in order to access the Company's pages.

Fidonet : This is the Fidonet address of the Company. Note that usually this address refers to the president of the Company (the name of the person the address is referring to is enclosed in ()).

Activities : This is what the Company is dealing with. Also a list of companies which this company is a distributor for, is included.

Products : These are the products developed and distributed by the Company. If the company is a distributor for another company then check the other's company entry in order to find the complete range of distributed products.

### Dealers/Vendors

- The list is sorted alphabetically by Dealer/Vendor name.  
The next version will be hopefully sorted by Country name.

- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the Dealer/Vendor for any reason. Note that usually this address refers to the president (the name of the person the address is referring to is enclosed in ()).

FTP : This is the FTP address of the Dealer/Vendor. Use this address in order to access the Dealer/Vendor's FTP site.

WWW : This is the WWW address of the Dealer/Vendor. Point any WWW browser to this address in order to access the Dealer/Vendor's pages.

Fidonet : This is the Fidonet address of the Dealer/Vendor. Note that usually this address refers to the president (the name of the person the address is referring to, is enclosed in ()).

---

Products : These are the products distributed by the Dealer/Vendor.  
If some of them are "special", their names are included.  
Otherwise the phrase "Complete range of ..." is included.

#### Groups/Teams

- The list is sorted alphabetically by Group/Team name.
- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the Group/Team for any reason. Note that usually this address refers to a member of the Group/Team (the name of the person the address is referring to is enclosed in ()).

FTP : This is the FTP address of the Group/Team. Use this address in order to access the group/team's FTP site.

WWW : This is the WWW address of the Group/Team. Point any WWW browser to this address in order to access the group/team's pages.

Fidonet : This is the Fidonet address of the Group/Team. Note that usually this address refers to a member of the Group/Team (the name of the person the address is referring to is enclosed in ()).

Activities : This is what the Group/Team is dealing with.

Projects : These are the projects created/developed by the Group/Team.

#### BBS

- The list is sorted alphabetically firstly by Continent/Country/State name and secondly by BBS name.
- The meaning of fields is :

Sysop : This is the Sysop's name. What follows enclosed in <> is his/her e-mail address.

E-Mail : This is the E-Mail address you should use if you want to contact the BBS for any reason. Note that usually this address is the same with the sysop's e-mail address if a general one doesn't exist.

FTP : This is the FTP address of the BBS (rarely used).

WWW : This is the WWW address of the BBS. Point any WWW browser to this address in order to access the BBS's pages.

Telnet : Use this address to telnet into the BBS. If a port number is specified too, use that one too.

Fidonet : This is the Fidonet address of the BBS. Note that usually this address is the same with the sysop's Fidonet address if a general one doesn't exist.

Amiganet : This is the Amiganet address of the BBS. Note that usually this address is the same with the sysop's Amiganet address if a general one doesn't exist.

Notes : These are notes about the "interests" of the BBS.

Lines : These are the phone numbers you should use to contact the

BBS. Usually the first part of the number is enclosed in () and refers to the country code. What follows after the phone number (and is also enclosed in ()) is the modem type and speed used by the BBS.

### Mailing Lists

- The list is sorted alphabetically by ML (Mailing List) name.
- The meaning of fields is :

E-Mail : This is the address you should use to get various info regarding the ML or if you have any problems with the ML. What follows, enclosed in (), is the name of the person (usually the maintainer) the address is referring to.

SubscribeAd : Send email to this address in order to (un)subscribe to/from the ML.

SubscribeCm : Send these commands to the above address in order to (un)subscribe. If this field is empty, then try to send a HELP command.

NOTE :

EmailAddress = your email address  
(eg.: chatasos@teia.ariadne-t.gr)

FirstName = your first name  
(eg.: Tassos)

LastName = your last name  
(eg.: Hadjithomaoglou)

[] = optional field

Mail : Use this address if you want to send something to the ML, after you have subscribed. If this field is empty, then most probably you can use the Subscribe address or the address returned to you by the ML after the subscription.

FTP : This is the FTP address you should use if you want to access the ML's archives.

Notes : These are notes about the purpose of the ML.

### Newsgroups

- The list is sorted alphabetically by Newsgroup name.
- The meaning of fields is :

News : This is the name of the newsgroup. Point any newsreader to news:<name> to access that particular newsgroup.

Notes : These are notes about the purpose/interests of the newsgroup.

Moderator : This is the moderator's name. If this field exists, then you should contact him/her (use the e-mail address enclosed in <>) in order to make a posting.

### Zines

---

- The list is sorted alphabetically by Zine name.
- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the zine for any reason. This is usually the same with the editor's e-mail address if a general one doesn't exist.

WWW : This is the WWW address of the zine. Point any WWW browser to this address in order to access the zines's pages.

Editor : This is the editor's name. Use the e-mail address enclosed in <> if you want to refer specifically to him/her.

#### WWW Resources

- The list is sorted alphabetically by WWW Resource name.
  - The meaning of fields is :
- E-Mail : This is the E-Mail address you should use if you want to contact the maintainer of the Web Page for any reason (the name of the person the address is referring to is enclosed in ()).
- WWW : This is the WWW address. Point any WWW browser to this address in order to access the particular Web page.
- Notes : These are notes about the contents of the Web page.

## 1.101 AMIL\_Search

### AMIL\_Search

This is just an experimental search function. It's written in ARexx and it's quite slow (try reading the whole file line by line, while searching each line and writing to a new file at the same time). A new faster search function is coming very soon. Thanks a lot for your help !!!

Please pay attention to these :

- o You don't need anymore to make an AMIL: assign, so AMIL\_Search.rexx can load AMIL:AMIL.guide and search it. AMIL\_Search.rexx searches first into the current directory and if AMIL.guide is not found there, then it searches into AMIL:.

Anyway if you insist on making the assign, here it is how :

Assign AMIL: <insert directory of AMIL.guide here>

eg. : Assign AMIL: DH2:Docs/AMIL

- o Either place AMIL\_Search.rexx into the Rexx: directory or better leave it into the current (or AMIL:) directory.
  - o AMIL\_Search.rexx creates a file (called AMIL\_Search.guide) into volume T:, so having T: assigned as RAM:T is a good idea.
-

- o The following files must exist and be in your path :
    - rx (found in SYS:rexxc)
    - REXXMAST (found in SYS:System)
    - Run (found in C:, resident in AmigaOS >= 2.0)
  - o The file REXXMAST (SYS:System/REXXMAST) is executed before AMIL\_Search.rexx (rx calls it), so you don't have to run it manually.
  - o AMIL\_Search.rexx can be run from:
    - CLI

The word to search for can be supplied either as an argument :  
eg.: AMIL\_Search.rexx thomas  
will find and display all lines containing "thomas"

or leave the program itself ask for one :  
eg.: AMIL\_Search.rexx  
will display "Please input word to search for :"  
and you can type in the word you want to search for.
    - WorkBench

A CON: window will be opened and the message  
"Please input word to search for :" will appear.  
Now just type in the word you want to search for.
  - o You can press "Return" before entering anything else if you want to abandon the search.
  - o The search can be aborted anytime by pressing Control+C. Note that the file T:AMIL\_Search.guide created till then will be deleted.
  - o The search being done is case insensitive, so "thomas" is the same as "Thomas" which is the same as "ThOmAs".
  - o In order to view AMIL\_Search.guide you can use :
    - SYS:Utilities/MultiView (default)
    - SYS:Utilities/AmigaGuide
    - an AmigaGuide database viewer of your choice. All you have to do is change the line :  
Viewer = 'SYS:Utilities/MultiView'  
to the right one for your viewer. Please use the full path otherwise AMIL\_Search.rexx won't be able to find it.
  - o The file which is created (T:AMIL\_Search.guide) is a normal AmigaGuide database containing links to the lines of the nodes where the word was found and the actual lines themselves. So clicking on a button/link will transfer you to the appropriate node and line of AMIL.guide. Then you can press the "Retrace" button and move back to AMIL\_Search.guide, press another button/link and so on.
  - o The Run command is used with Multiview (or AmigaGuide) so you can continue your work while the AMIL\_Search.guide is being displayed.
-

The drawback is that when you finish, you'll have to delete T:AMIL\_Search.guide manually.

NOTE : I'm still waiting for an AmigaGuide (+.library) version with a search function included (Anyone/VIScorp/AT hearing me?).

## 1.102 AMIL\_Contrib

### AMIL\_Contrib

This is just an experimental contribute function. It's written in ARexx and can be used through AMIL.guide also.

Please pay attention to these :

- o Leave AMIL\_Contrib.rexx into the current (or AMIL:) directory.
- o AMIL\_Contrib.rexx creates a file (called AMIL\_Contrib.txt) into volume T:, so having T: assigned as RAM:T is a good idea.
- o The following files must exist and be in your path :
  - rx (found in SYS:rexxc)
  - RexxMast (found in SYS:System)
- o The file RexxMast (SYS:System/RexxMast) is executed before AMIL\_Search.rexx (rx calls it), so you don't have to run it manually.
- o AMIL\_Search.rexx can be run from:
  - AMIL.guide

Just go to the  
Contributions  
node and press one of the 9 buttons.

- CLI

The project to contribute to can be supplied either as an argument :  
eg.: AMIL\_Contrib.rexx 5  
will display the form for BBS (BBS = 5) to be filled by you.

or leave the program itself ask for one :  
eg.: AMIL\_Contrib.rexx  
will display all available choices from 1 to 10  
and you can type in the number you want to contribute to.

- WorkBench

A CON: window will be opened and all available choices  
from 1 to 10 will appear.  
Now just type in the number you want to contribute to.

---

- o You can press "Return" before entering anything else if you want to abandon the contribution.
- o The contribution can be aborted anytime by pressing Control+C. Note that the file T:AMIL\_Contrib.txt created till then will be deleted.

## 1.103 Other Nets -> Internet

xxxNet-Internet Gateways

Fidonet -> Internet  
NOTE : If you need more nets just mail me.

## 1.104 Fido-InterNet gateways

Fido-InterNet gateways

USA and other

Fidonet : zone:net/node.point (firstname lastname)  
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fidonet.org

eg.

Fidonet : 2:292/603.10 (Nico Francois)  
Internet : Nico.Francois@p10.f603.n292.z2.fidonet.org

Australia

Fidonet : zone:net/node.point (firstname lastname)

---

UK

Fidonet : zone:net/node.point (firstname lastname)  
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fido.zetnet.co.uk

eg.

Fidonet : 2:259/15.46 (Lee Kindness)  
Internet : lee.kindness@p46.f15.n259.z2.fido.zetnet.co.uk

Where : p=point (optional)

f=node

n=net

z=zone

X=number 0-9

NOTES

- When you come into a name containing 3 words, most of the times that means that the first word is the firstname and the third (last) word is the lastname.
  - The format used is the first example (USA and other) is the general one and can be used everywhere. Try it if nothing else works.
-
