The CHAOS theory:

"Like finding that bloody butterfly whose flapping wings cause all these storms we've been having lately and getting it to stop." (see "Witches Abroad" by Terry Pratchett)

Ahm...well:

...and thanks for all the fish.

1.2 copyright

1.3 disclaimer

The author takes no responsibility for any results of the use of this program.

This software is provided "AS IS" and there is no warranty of any kind, so that you use this software at your own risk.

The author reserves the right to discontinue development of the program.

1.4 distribution

The FAXX.datatype in this version is freely distributable (FREeware). You may copy it, if the copyright notice is left intact and all of its parts are included in the distribution.

This program may not be included in commercial packages or commercial program collections without written permission and must not be sold commercially as a single program.

This program may be put on public domain disks or included in public domain disk libraries - when being distributed that way, it is allowed to take a nominal fee including the costs for copying, without considering that as "commercial" in the above mentioned sense.

This program may also be distributed via electronic mail and may be put into mailboxes as long as the redistribution conditions are respected in all points.

By using or distributing this program you automatically agree to all of the above conditions and terms.

1.5 Usage and so on

Usage

Just install the datatype files to their appropriate directories.

Program information

FAXX.datatype is a datatype for reading the IFF-FAXX file format as e.g. written by GPSoft's GPFax software.

It does work as well with picture.datatype V39-42 as V43 and produces 2 color black and white faxx images.

FAXX.datatype is FREeware - feel free to send any comments :-)

Fax software ?

For information on pricing and where to order GPFax, you may visit GPSoftware's homepage at <http://www.gpsoft.com.au>

If you're also more interested in graphics in common, you may as well take a look at PerSuaSiVe SoftWorX' homepage at URL http://home.t-online.de/home/Andreas_Kleinert/ where you can find some information on SViewNG/SuperView.
