YASS

YASS stands for Yet Another Screen Saver. YASS is designed to work with Windows 3.1.

To install YASS you need to copy YASS.SCR, YASS.HLP and BHSCC.DLL to your Windows 3.1 directory (typically C:\WINDOWS).

You can modify parameters for YASS after you have selected it in the DeskTop control panel applet. Click on the Setup... button to access the YASS setup dialog.

The Setup Dialog allows you to change three parameters for YASS.

Draw Speed lets you set the speed each circle is drawn. A lower number increases the drawing speed. A higher number slows the drawing speed.

Draw from Center sets YASS to draw circles from the center.

Draw from Edge sets YASS to draw circles from the edge.

All parameters are remembered between sessions.

The use of YASS is subject to the following terms and conditions:

YASS is copyrighted material, protected by the copyright laws of the United States. You may not make any changes or modifications, decompile, disassemble, or otherwise reverse-engineer the software in any way.

YASS can be used on a trial basis provided the user does not violate the protection afforded the licensed software by the copyright laws, and the user agrees to the terms of the license agreement. If the user continues to use YASS past a 15 day evaluation period the user is obligated to purchase a license.

YASS can be used on a Local Area Network provided that a license is obtained for the number of users that may concurrently use the software. A license for the user of YASS can be obtained by sending a $15.00 registration fee to:

Beacon Hill Software
Box 8494
Boston, MA 02114

Please specify disk size (3.5" or 5.25") when registering.

Title to the licensed software is **not** transferred to the end-user. The end-user is granted an exclusive license to use the software on one computer at any given time.

Limited Warranty

Beacon Hill Software and its agents do not warrant that the licensed software will meet any requirements or that the operation of the software will be uninterrupted or error free. The warranty does not cover any media or documentation that has been subject to damage or abuse by you or others. The software warranty does not cover any copy of the licensed software that has been altered or changed in any way.

Any implied warranties including any warranties of merchant ability or fitness for a particular purpose are limited to the term of the express warranties. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. The warranties set forth above are in lieu of any and all other express or implied warranties, whether oral, written, or implied, and the remedies set forth above are the sole and exclusive remedies.

Beacon Hill Software and its agents are not responsible for any problems or damages caused by the licensed software that may result from using the licensed software. This includes, but is not limited to, computer hardware, computer software, operating systems, and any computer or computing accessories. End user agrees to hold *Beacon Hill Software* and its agents harmless for any problems arising from the user of the software.

Beacon Hill Software **and its agents shall not in any case be liable for any special, incidental, consequential, indirect or other similar damages arising from any breach of these warranties even if** *Beacon Hill Software* **or its agents or distributors have been advised of the possibility of such damage**. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

In no case shall *Beacon Hill Software's* liability exceed the license fees paid for the right to use the licensed software.

Distribution

Users are granted a limited license to copy YASS only for the trial use by others subject to the terms of this software license agreement described herein, and the conditions described below

YASS MUST be copied in and unmodified form and MUST contain the following files:

    YASS.SCR
    YASS.HLP
    YASS.TXT
    BHSCC.DLL

No fee, charge or other compensation may be accepted or requested by anyone without the express written permission of Beacon Hill Software.

Public Domain Disk Vendors, Shareware Disk Vendors and Distributors of public domain and user supported software may not charge a fee for YASS itself. However, you may include YASS on a diskette for which you charge a nominal distribution fee. The purchaser of said diskette must be informed in advance   that the fee paid to acquire the diskette does NOT relieve said purchaser from paying the registration fee for YASS if said purchaser uses YASS.

Operators of electronic bulletin board systems may post YASS for downloading by their users without written permission only as long as the above conditions are met. A fee may be charged for access to the bbs as long as no specific fee is charged for downloading YASS files.

Six-Pack For Windows

Registering entitles you to a copy of Six-Pack For Windows which contains the following:

Red Button   Red Button lets you exit Windows quickly. Red Button runs as an icon that looks like a red button. When you double click on the red button you will exit Windows. An optional warning dialog is available.

Launcher   An application launcher that allows you to easily traverse directories to find an application and run it.

Runner   Runner mimics the Program Managers File/Run dialog. Since Runner is not a dialog you can have Runner available at any time to launch applications.

Walker   A minimalist version of Runner. An edit box that accepts an application and it's path upon hitting the return key and runs it.

PayOff   A loan payoff amount calculator for Windows.

SnapShot   SnapShot is an easy to use screen capture program for Windows that allows you to capture a window, the entire screen or any portion of the screen by enabling the right mouse button as a shutter for SnapShot's screen capture function. Each captured image is made available to other applications via the Windows clipboard.
