**Select Word to Rhyme**

THIS TOPIC IS NOT CALLED BY THE HELP SYSTEM

### Select Intended Pronunciation

Rhymer includes multiple pronunciations for well-known variants, but not all dialect variations are included. If a word you want to rhyme has multiple pronunciations, they are displayed phonetically with a legend of phonetic symbols.

For example, if you enter the word **read** under any of the options, the pronunciation choices **rEd** and **red** appear:

- 1 Double click the pronunciation you want to use. For example, to find words rhyming words with **read**, with the vowel sound pronounced **ee** as in the word **beet**, you would double click **rEd** and click Rhyme.

### **Save Rhyming Words**

To save retrieved words to a DOS text file,

- 1 Click File ► Save Rhyming Words.
- 2 Specify a path and filename.
- 3 Click Save.

### **About Options**

Use Options to limit the scope of a search.

For example, Rhymer's syllable selection capability lets you specify the smallest and greatest number of syllables in the words to be retrieved. This helps you find words that fit a specific rhythm or meter (although Rhymer does not recognize which syllable is the stressed syllable).

### **End Rhymes**

Words with ending rhyme have the same final vowel sound and following consonant sound(s). For example, if you enter the word **laughter** under this option, Rhymer retrieves a list of words with the ending sound **er** (e.g., admirer, doctor, pleasure, scholar, watercolor, and were). Other examples of ending rhyme include:

hat/cat

plate/eight

marigold/buttonholed

This option lets you easily find exact rhymes (words in which the final vowel and consonant sounds are the same) and masculine rhymes (rhyming words with a stressed final syllable).

### **Last Syllable Rhymes**

Words with last syllable rhyme have the same sounds following the last syllable boundary (commonly a consonant, a vowel, and another consonant). For example, if you enter the word **explain** using this option, Rhymer retrieves a list of words with the last syllable sound **plain** (e.g., aquaplane, biplane, plane, and plain). Other examples of last syllable rhyme include:

humanity/zesty

threw/breakthrough

pleat/complete

This option lets you find masculine rhymes and all other words with final syllables (stressed or unstressed) that rhyme with the word you entered.

### **Double Rhymes**

Words with double rhyme have the same vowel sound in the second-to-last syllable and all following sounds. For example, if you enter the word **soaring** using this option, Rhymer retrieves a list of words with the sound **oring** (e.g., adoring, exploring, pouring, scoring, touring, and restoring). Other examples of double rhyme include:

walking/talking

humming/coming

navigator/waiter

This option lets you find feminine rhymes (rhyming words with an unstressed final syllable). Words entered using this option must have at least two syllables.

### **Triple Rhymes**

Words with triple rhyme have the same vowel sound in the third- to-last syllable and all following sounds. For example, if you enter the word **combination** using this option, Rhymr retrieves a list of words with the sound **anation** (e.g., explanation, coronation, destination, and imagination). Other examples of triple rhyme include:

antelope/cantaloupe

greenery/scenery

mightily/vitality

Words entered using this option must have at least three syllables.

## **Beginning Rhymes**

Words with beginning rhyme have the same initial consonant sound(s) and the same first vowel sound. For example, if you enter the word **plantation** using this option, Rhymer retrieves a list of words with the sound **pla** (e.g., plan, plaque, plaster, and plateau). Other examples of beginning rhyme include:

scenery/cedar

cat/kangaroo

table/tailor

This option lets you find words with initial alliteration (the repetition of initial consonant sounds), initial assonance (the repetition of initial vowel sounds), and front rhyme (the succession of beginning sounds of words).

### **First Syllable Rhymes**

Words with first syllable rhyme have the same sounds preceding the first syllable break. For example, if you enter the word **explanation** using this option, Rhymer retrieves a list of words with the sound **ex** (e.g., excavate, exhale, expert, and extra). Other examples of first syllable rhyme include:

pantaloons/pantomimes

highlight/hydrant

tulip/twosome

**This option lets you find words with extended initial alliteration (the repetition of initial consonant sounds), extended initial assonance (the repetition of initial vowel sounds), and front rhyme (the succession of beginning sounds of words).**
