

Calamus® for Windows95™

Demo Release

Sep., 1995

Calamus requires Windows95 build 950 in order to run correctly. Please use Windows95 build 950 (final) or later when running Calamus.

You can use all the things like an full-release. We only force Calamus to write his name on all printings. On the CD of the full release you will find many samples, a Demo of ColorView and more fonts as in this demo.

All UK enquires should be directed to:
