

v1.3 Bug fixes:

- 1 Fixes problem with 6 or more players trying to startup a multiplayer game and the game disappearing from the list after the 5th player has joined the game, if map was chosen before all players entered game.
- 2 Fixes problem with 8 or more players being able to start a multiplayer game

Saved games will not work with the Patch, however, Campaign Progression will carry over to the patched version.

Before installing this code update, you must first install the Dark Reign 2 v1.1 patch (if you have not already.) It is not necessary to install the v1.2 patch.
