

Windows 2000 Installation

PC MACLAN for Windows NT and PC MACLAN for Windows 2000 function identically. This addendum describes how to install PC MACLAN on a Windows 2000 system and how to use the installation features.

Installing PC MACLAN

- 1. Log on as an administrator.
- **2.** Exit all programs, and disable screen saver and virus protection programs.
- 3. Insert the PC MACLAN CD into your CD-ROM drive.
- **4.** When the PC MACLAN window opens, click on the Install PC MACLAN icon.
- 5. In the installation wizard Welcome window, click on Next.
- 6. In the license agreement window, select the radio button indicating that you accept the terms in the license agreement, and click on Next.

	< Back Next > Can	cel

8. Select the radio button for a complete installation, then click on Next.

Note:

A complete installation installs the client and print client components, and the file server and print server. If you need to install only certain components of PC MACLAN, or if you wish to install it in a different directory, you can choose the custom setup option.

In the Ready to Install window, click on Install. An installation status window displays while PC MACLAN is installing.

9. When the installation is complete, click on Finish. A window is displayed asking if you would like to restart your computer.

10. Click on Yes to restart your computer.

Removing PC MACLAN

- 1. Log on as an administrator.
- **2.** Exit all programs, and disable screen saver and virus protection programs.
- 3. In the Start Menu, go to Settings and open the Control Panel.
- 4. In the Control Panel, double-click on Add/Remove Programs.
- **5.** In the Add/Remove Programs window, click on PC MACLAN for Windows 2000 to select it, then click on the Remove button.
- 6. Click on Yes to confirm that you want to remove PC MACLAN.
- 7. When the removal is complete, a window is displayed asking if you would like to restart your computer.

8. Click on Yes to restart your computer.

Maintaining PC MACLAN

Once PC MACLAN has been installed on your system, the installation program offers you several options. In addition to removing the program, you can also choose to modify or repair it.

Modifying PC MACLAN features

Customizing lets you change the way PC MACLAN features are installed.

• To modify PC MACLAN:

- 1. Log on as an administrator.
- **2.** Exit all programs, and disable screen saver and virus protection programs.
- 3. In the Start Menu, go to Settings and open the Control Panel.
- 4. In the Control Panel, double-click on Add/Remove Programs.
- **5.** In the Add/Remove Programs window, click on PC MACLAN for Windows 2000 to select it, then click on the Change button.
- 6. In the installation wizard Welcome window, click on Next.

The Program Maintenance window is displayed.

- 8. Select how you want each feature to be installed, then click on Next.
- **9.** An installation status window displays while PC MACLAN is modifying the installation of features.
- **10.** When the modifications are complete, click on Finish. A window is displayed asking if you would like to restart your computer.

11. Click on Yes to restart your computer.

Repairing PC MACLAN

The repair function repairs errors in the program by fixing missing or corrupt files, shortcuts, or registry entries.

• To repair PC MACLAN:

- 1. Log on as an administrator.
- **2.** Exit all programs, and disable screen saver and virus protection programs.
- 3. In the Start Menu, go to Settings and open the Control Panel.
- 4. In the Control Panel, double-click on Add/Remove Programs.
- **5.** In the Add/Remove Programs window, click on PC MACLAN for Windows 2000 to select it, then click on the Change button.
- 6. In the installation wizard Welcome window, click on Next.

The Program Maintenance window is displayed.
