

Auto Expense Manager 97

Welcome to Auto Expense Manager 97 v1.6. The document will provide a brief description of the program, system requirements, installation instructions, registration information, and author contact information.

Program Description

This application is used to track expenses and trip data for multiple vehicles. It can track all trips and expenses whether they are business related or not. The trip entries and expense entries have a field to denote whether it is business related. Tracks and unlimited number of vehicles, trips and expenses. Stores insurance and auto club information. Generates reports for specific date ranges that can be used for tax purposes.

Systems Requirements

- * Microsoft Windows 95 or Windows NT
- * IBM-PC or compatible with a 486 or greater CPU
- * 8MB Ram and approximately 2 Meg free hard disk space

Installation Instructions

Windows 95 Installation and Start-up

1. Click the Start button on the Taskbar.
2. Click Run
3. Type A:\MANAUTO.EXE or B:\MANAUTO.EXE as applicable
4. Follow the on screen instructions
5. To start the program, click the Auto Expense Manager 97 icon in the Auto Expense Manager program group.

NOTE: *If you download the program from the Internet, on-line service or BBS, the program will be in a zip format. After unzipping the program choose FILE|RUN and type the drive and path where the file is located followed by **MANAUTO.EXE**. For example: C:\TEMP\MANAUTO.EXE. Then follow the on screen instructions.*
