

Microlog Cabinet Manager(R) version 1.0 Beta 2

Copyright (C) 1997 Microlog GmbH, Borchten

All Rights Reserved

*** Requirements ***

Microlog Cabinet Manager requires Windows95 with Microsoft Internet Explorer or WindowsNT 4.0. 3.01

Microlog Cabinet Manager does not support Windows 3.1, or Windows NT 3.51.

*** What is new since Beta 1 ***

1. Files can be removed from cabinet as long as it is not finalized.
2. Files can be viewed directly out of a cabinet.
3. Authenticode(tm) trust check for cabinet files.
4. MS-ZIP Compression can be turned on or off.
5. Security options allow two security levels for Authenticode(tm).
6. License can be installed from within Cabman 97.
7. Sortable and sizeable columns in main view.

Authenticode is a trademark of Microsoft Corporation.

*** Technical Support ***

There is no technical support for this Beta.

*** Documentation ***

Help can be accessed via the Internet from within Microlog Cabinet Manager.

*** List Of Files ***

The Microlog Cabinet Manager Beta installs the following files in the default or user specified directory:

\Win32App\CabMan:

Readme.wri	this file.
CabMan.exe	the required executable

\Winnt\System32:

Mfc42.dll	Mfc Library
Msvcrt.dll	VC++ Runtime Library

*** Misc. Issues ***

Cabinet Manager conforms to the Microsoft CAB file format specification.

Check out the CabMan Web Site at <http://members.aol.com/cabman97>

This Beta will expire on Aug/97.

Personal and non-commercial use requires a license which is available free from Microlog. Commercial use requires a separate license. Ask for details.

Many thanks to the people at Microsoft, who made this product possible.
