

## **SiSoft Sandra - The Diagnostic Tool, Compatibility Document**

This document provides some information about *SiSoft Sandra*. Please read the ***Sandra Licence*** document which tells you the legal stuff, my copyright, your rights and your warranty. Please also read the ***Ordering Information*** document which tells you how to get the registered version of SiSoft Sandra. Don't forget the **Help File!**

This document was written to answer questions about Sandra's compatibility. Sandra was tested and no problems have been noticed on the listed devices. Of course, this does not mean that it will work on similar configurations...

This file is in *Microsoft Word* format. If you do not have *Word for Windows*, *WordPad* or *Word for Windows Viewer* most word processors can convert it into their own format. Should they fail, import it as Windows text.

### **Using Windows Word/WordPad to View This Document**

If you enlarge the WordPad window to its maximum size, this document will be easier to read. To do so, click the ***Maximise*** button in the upper-right corner of the window. Or open the ***Control*** menu in the upper-left corner of the WordPad window (press **ALT+SPACE**), and then choose the ***Maximise*** command.

To move through the document, press **PAGE UP** or **PAGE DOWN** or click the arrows at the top and bottom of the scroll bar along the right side of the WordPad window.

To print the document, choose the **Print** command from the ***File*** menu.

For **Help** on using WordPad, press **F1**.

To read other on-line documents, choose the **Open** command from the ***File*** menu.

### Floppy Disks - Benchmarking

Device	Sequential Read	Random Read	Sequential Write	Random Write
1.44MB 3.5" Floppy	40-60	40-60	40-50	25-40
1.2MB 5.25" Floppy	40-60	50-60	40-50	30-40

Buffered Read/Write is system memory dependent, so it is not useful. Scores in KB/s.

### Comments

This list includes only devices which may be incorrectly detected on some systems or have been used for benchmarking purposes. If I were to list all video cards that Sandra was tested on for example this list would be way too large.
