`You can mail your valuable comments or bugs if any about this program to :-`

Vasanthkumar@eth.net

Your comments will help me to develop similair programs.

2.What is Folder Icons:

It is a small utility that helps you to change the icons for your folders individually .You can select whatever icon you like and set it to your folders .You can even change the icons for the WINDOWS and the SYSTEM folders.Changing the icons ,with the cool interface I have

provided will be great fun and very easy .Suppose if you want to revert back to your default icon you can do this with a press of a button .So you need not worry whether you will be able to get back your original icons.

IMPORTANT:

FOLDER ICONS WORKS ONLY WITH WINDOWS 98 .IT ALSO WORKS WITH WINDOWS 95 IF 'WEB VIEW' FOR FOLDERS IS ENABLED .WEB VIEW CAN BE ENABLED BY INSTALLING INTERNET EXPLORER VERSION 4 OR ABOVE

3.How to use it:

There is no need for explaining how to use the utility.You will easily understand it after taking a look at the interface.Any way I will explain to you how to use it.

1.First press the"ICON"button and select the icon file(*.ico) you like.

2.Then select the folder whose icon you want to change from the "Choose Folder" box in the left .Make sure that the address of the folder apperrs on the bar above the "Icon Preview"

3.Now press "APPLY" .

4.Then go to the folder to see the changes .If you cannot see any changes select the folder and press F5 .Remember to select the folder before pressing F5 ,as simply pressing F5 does not work some times .(F5 is for refreshing).

5.If you want to revert back to the original icon .Select the folder in the same way and press "DEFAULT" .Then you can see the changes in the same way as explained in step 4.

It's as easy as that

4.Disclaimer:

Folder Icons does not cause any harm to your computer as it neither meddles with any hardware nor the windows registry .The developer is not responsible for any kind of loss or malfunctioning .You are testing it at your own risk .

5.Licence :

Folder Icons is completely free .You can make as many copies as you like .You can even sell it if you can .Any kind of help that would help me develop similair programs are welcome .You can mail me at
