Four members of a team making a geological survey for a mining company find themselves trapped deep in a forest when they are delayed by heavy rains. The only way back to base camp is closed to them because a swollen river has carried away the bridge. Although he will not admit it, Leon, the boss, starts to lose control of the situation.

Old Adam is delighted at the surprise gift of a money order from his son working in England. It represents more money than he has ever seen before and he is excited at the prospect of giving a party for his friends and relatives. But as soon as he attempts to cash the money order he encounters dishonesty, deception and bureaucratic red tape.

Three cases solved by Sherlock Holmes. In The Speckled Band, a young woman seeks Holmes' help in discovering how her sister died. In The Dancing Men, Holmes has to apply all his formidable powers of deduction to unravel the meaning of some secret coded messages. In The Red-Headed League, Holmes investigates the truth behind a bizarre job advertisement.

Painter Basil Hallward makes a superb portrait of a rich, young and beautiful man, Dorian Gray. He does not want Dorian to meet Lord Henry Wotton, a friend of Basil's, because he has a bad reputation and Basil does not want Dorian to be influenced by him. Basil's fears are wellfounded. Henry and Dorian meet and the young man's life is changed forever.

The story is set in Utah in 1871. Most of this state's territory is covered with desert, mountains and wide plains. Horses and cattle are grazing on the plains, looked after by cowboys. As is typical for Zane Grey's books, we will witness a story of love and hatred, naturally with a happy ending.

{ewc MVIMAGE, MVIMAGE, ! DEM99004 FH BMP MALELOGO COURSES BMP}

{ewc MVIMAGE, MVIMAGE, !DEM99004 FH BMP L BEI BMP} LANGMaster COURSES are adapted textbooks from the popular Heinemann Guided Readers of Macmillan Heinemann ELT English publishing house. These textbooks are designed for learners of English from beginner to intermediate level. They provide an authentic English context and effectively improve the fluency and accuracy of your English.

Learning is divided into 12 courses, always 4 courses relevant to one level of ability (Beginner, Elementary, Intermediate). The maximum of senses are involved in the learning at the same time so that the best result is achieved. You can listen to and read an English story and watch accompanying pictures. You can stop listening at any time, return back to previous passages or to look at the definition of any unknown word from the dictionary.

All courses are compatible with the dictionary Collins **COBUILD Student's Dictionary** from the LANGMaster series. Only with this dictionary is the right meaning of each word from any course found based on the given context.

{ewc MVIMAGE, MVIMAGE, !DEM99004 FH BMP L UPPER BMP} The LANGMaster series contains two titles for advanced students based on Macmillan Heinemann ELT courses -The Heinemann TOEFL Preparation Course and The Heinemann TOEFL Practice Tests. With their help you will not only improve your English to the level required for study at colleges and universities in North America and elsewhere but at the same time you will discover just how good your English really is. They will help you to test the skills of listening, writing, vocabulary and English grammar to the level necessary for you to be best prepared for a successful sitting of the TOEFL exam.

Your indispensible assistant will be your Personal Planner which on the basis of practice tests initially draws your attention to your weaknesses and this way optimizes learning and shortens the time necessary for preparation.

The **TOEFL** (Test of English as a Foreign Language) is an internationally recognized English examination which measures the level of English language proficiency of non-native speakers of English.

{ewc MVIMAGE, MVIMAGE, ! DEM99004 FH BMP MALELOGO DICT BMP}

{ewc MVIMAGE, MVIMAGE, !DEM99004 FH BMP L BEIU BMP} A completely recorded English monolingual dictionary: the Collins COBUILD Student's Dictionary contains 283,000 recorded words which represent 50 hours of speech, 40,000 definitions and 30,000 examples. All the headwords including examples of usage, inflected and derived forms are recorded by professional native English speakers. It allows you to search for words and phrases which you can learn quickly and effectively using the special RE-WISE method and moreover it will help you to practise correct English pronunciation.

The dictionary is compatible with all **English courses** from the LANGMaster series. Only with this dictionary is the right meaning of each word from any course found based on the given context. For example if you take the word **OFF** in the sentence "And he took his hat off ..." the exact meaning, i.e. the whole phrasal verb **TAKE OFF** is found.

About Tangram Technology The TANGRAM Enterprise is designed for corporate usage and school usage.

Edutainment learning designed for those, who wish to learn German language through a playful mode. The user interface will be more colorful, live and respondent will be named by his name (in German it matters).

Education learning for those who take German language as a serious task to be fulfilled, like preparation for exams and international Certifications (e.g. Zertifikat Deutsch als Fremdsprache), professional usage, linguists, university students, businessmen etc. In this case user will be called by his family name.

The main added values are:

ROXXE CD PROTECTION {ewc MVIMAGE, MVIMAGE, ! DEM99004 FH BMP GZ ROXXE BMP}

www.roxxe.com info@roxxe.com

Basic Information

ROX**E** cd protection CD protection is a brand new combination of hardware and software protection that makes it impossible to run software from illegally copied CDs.

Like most of the available protections **RO**X**E** meets the following basic requirements:

- u The original software is modified so that it will not run, without the specific action of the guard module.
- The guard module recognizes the original CD-ROM, without this detection the application will not run or will run under considerable restrictions.
- u Physical key is present on the CD-ROM. This key is not reproducible by usual method, either by disc copying using a CD writer or professional remastering to a silver CD.

WHAT CAN BE PROTECTED BY ROXXE

Nowadays ROXXE cd protection can be used to protect software, that:

- u is distributed on CD-ROM ISO 9660 / Joliet
- u works under systems Windows 3.x / Windows 9x / Windows NT / Windows 2000

Protected software can be created under various development environments: C++ / Delphi / Macromedia Director / Multimedia Toolbook / ..., while protection can be implemented at various levels, depending on the requirements and their options.

The communication with a customer can have the following form: the customer interested in CD protection, provides basic information on their software. Then the most effective method is selected. Customer receives instructions, how to conceal the calls to the guard module, to hide it against unauthorized persons, and to make it irremovable from software code. Check of physical key can be executed in many different ways, so that after breaking one method of protection the original CD is further protected and illegal running of application is recognized.

This level is intended for adults and young adults who have no or little knowledge of German; based on a textbook "Deutsch als Fremdsprache". At the same time, the textbook should be designed for both learners who are experienced in learning a foreign language and learners who have never learnt a foreign language and who need to be trained in how to learn it in small steps.

{ewc MVIMAGE, MVIMAGE, !DEM99004_FH_BMP_L_IU_BMP} The LANGMaster New English Digest is a graded Print

The LANGMaster New English Digest is a graded English language magazine on CD-ROM/Audio CD for self-study adults and students in secondary schools. It is available for classroom or individual use and published bimonthly. The product in a result of joint venture between Electronic Publishing Association LLC (U.S.A.) and ILS Ltd. (U.K.).

The magazine provides the reader with a wide variety of articles, topics and writing styles that will accustom him or her to reading for information in a number of different formats.

The LANGMaster New English Digest is ideal for distribution through kiosk and magazine vendors, subscription agents, computer and software stores and educational wholesalers.

The CD-ROM/Audio CD contains an audio track with listening material, an ordinary CD player being all that is needed to access it. It provides extra readings (some of which are linked to recorded material) and language development exercises. On the CD-ROM/Audio CD you will find articles from all the issues of the magazine, all of which appear clearly listed on the contents page. You will also find a gripping serialization of 'The Stranger', one of the titles from The LANGMaster Series. The CD-ROM/Audio CD allows easy hotlink access to the Internet.

Technology Open System

To fulfill both crucial needs - backward compatibility and using the state of the arts technologies, the whole system is designed as an open platform where new features, upgrades, language localizations etc. would be easily added based on so called *LANGMaster* Plug-ins. Users will be able to update the "old" versions in the following ways:

- From new title of the Tangram series (higher level for example)
- From the Internet

Wireless Application Technologies

The **LANG***Master* Series - Tangram RE-WISE® Method is going to be one of the first edutainment application which will support mobile communications (Windows CE, Palm OS, etc) and wireless application technologies (such as WAP - Wireless Application Protocol, GPRS - General Packet Radio Services, etc). Just imagine - learning new words from the RE-WISE system using your mobile phone while sitting in a bus, or being tested from the last lesson using your palmtop while staying in an endless traffic jam. All this and much more will be possible to do with Tangram based on the wireless application technologies.

The Distance Learning system will be simultaneously developed together with The **LANG***Master* Series - Tangram project. Respondents will be allowed to extend learning possibilities connecting to The **LANG***Master* Distance Learning (LMDL) site. LMDL will offer possibilities such as:

Distance Learning

German Learner News

Learners will be provided with constant information for all people who are learning German as a second language.

Discussion Groups

You can get in touch with other LANGMaster Tangram users via e-mail or SMS (Short Message System).

Teachers Help

Some exercises are just impossible to automatically evaluate by a computer - let's take an essay for example. Therefore you will be able to send your essay to a real human teacher who will send you revision and evaluation back.

Statistics

Here you will find useful figures, statistics and information (frequently made mistakes, most common grammar problems, etc), which should help you to learn German more easily and effectively.

Upgrades

New features, upgrades, language localizations and additional functions will be available on the Internet. For more information see the Open System section.

Entertainment

If you get tired with studying here you will find funny stuff to play with.

Customizable User's Interface Setup

The **LANG***Master* Series - Tangram graphics is designed in a modern and eye-catching fashion. We also put profound effort into "customizable user's interface setup", that is to say, that users can easily adjust the structure of individual elements on the screen (vocabulary, notebook, current exercise, personal

planner, RE-WISE method etc.) according to their needs.

Teacher's notes - a special tool that will replace the real teacher in front of the board, creating a virtual teacher with all qualities and abilities a real one has. (e.g. it will be really written on the board what teachers say)

About Tangram

The ultimate state of the art German learning system

The LANG*Master* **Series - TANGRAM** is a brand new revolutionary product of the oncoming millenium, designed & developed by Electronic Publishing Association LLC, nowadays a key–player in the multimedia market, in cooperation with Max Hueber Verlag GmbH., one of the best–known publishers of German courses worldwide. This new–generation German interactive language course on series of CD-ROMs is directed for self-study of adults, students and team–study – covering homes, schools, institutions and corporations.

THE IDEA OF TANGRAM

TANGRAM is an ancient Chinese mathematical puzzle. The seven pieces of the puzzle are called tans. The finished arrangements made from the pieces are called tangrams. The object is to make designs using all seven pieces without overlapping. Tangrams of animal shapes, rectangles, triangles, parallelograms, trapezoids, hexagons, quadrilaterals, pentagons, and other designs can be made using the seven tans. Players create many figures by combining just seven elements. Concentration as well as trial and error can lead to the solution. The longer the game is played, the easier it is to get to the right solution.

The **LANG***Master* Series – TANGRAM is based on the same philosophy, where the seven pieces consist of the seven main language skills – SPEAKING, READING, WRITING, LISTENING comprehension, VOCABULARY, GRAMMAR and LEARNING strategy. This exceptional language learning method enframed with the new–sprung computer & Internet technologies indicates new horizons in language learning, determined for the oncoming millenium indeed.

The **LANG***Master* Series – TANGRAM project is unique in one substantial point.

TANGRAM in its book form will consist of three volumes, each with textbook and workbook (three levels), whereas the second and the third book are being developed as well as finalized. On developing and finalizing the books left, Electronic Publishing Association LLC will synchronically be creating the CD–ROMs catching up with the newest technologies whilst preserving the current conception and structure. This fact assures the most current technology, features and ideas to be implemented gradually into the software, avoiding any anachronism.

TITLES

The **LANG***Master* TANGRAM German interactive language course on series of CD-ROMs is directed for self-study of adolescent beginners, young adults, adults, students and team–study – covering homes, schools, institutions and corporations.

Edutainment learning designed for those, who wish to learn German language through a playful mode. The user interface will be more colorful, live and respondent will be named by his name (in German it matters).

Education learning for those who take German language as a serious task to be fulfilled, like preparation for exams and international Certifications (e.g. Zertifikat Deutsch als Fremdsprache), professional usage, linguists, university students, businessmen etc. In this case user will be called by his family name.

PRODUCTS DESCRIPTION

The **LANGMaster** TANGRAM German Course varies as far as language skills are concerned. It can be adapted to more or less intensive courses. It comes in a three-volume edition for beginners, intermediate and upper students of the German language (each with 12 units). Every volume equals 2 CD–ROMs. The CD–ROMs cannot be sold standalone, they come in two only. Every volume includes:

- ▶ ► Course Book
- ▶ ▶ Workbook
- ▶ ▶ Grammar Book
- → Teacher's Book
- → → Glossary

Every sixth unit offers the possibility to repeat and test what the student just learned. Numerous interactive exercises ensure the "actual" reached level of German language learning.

Raps and rhymes – The **LANG***Master* Series – **T**ANGRAM offers a variety of

entertaining audio material to learn German as it is spoken in everyday life.

CONTENTS

Various texts and pictures with lots of Internet references give the students a universal picture of the life in German speaking countries.

The students can study grammar individually by trying to understand it without the assistance of a teacher but they are helped to learn how to use it in practice and, which is a brand new quality, they can study on–line (The learners can get their grammar exercises, essays and other tasks revised on–line through the Internet server, designed especially for this purpose. All four language skills, that is, listening, speaking, hearing, and writing are practiced to the same extent.

A revision unit follows every five units. This revision unit allows finding out the level of the students giving options to catch up on any deficiencies.

ENTERPRISE AND SCHOOL NETWORK VERSIONS

The **T**ANGRAM Enterprise (for corporate usage) and School Network Version will be available in the same time as the single user version. The main added values are:

 Hierarchic organization of users (into classes or working teams)
 Lector supervision and tracking tools
 Easy to use respondents' evaluation

Principles of work with the network version

Compared to the non-network version it has two significant advantages. First of all there is no need for a CD-ROM drive for each workstation, secondly a large number of students working with the network version can be divided into smaller groups, e.g. school classes. Each student in the group is able to work independently as with the non-network version (including the RE-WISE method) but has access only to those **LANG***Master* Tangram course lessons that have been copied from the CD-ROM onto the network disk.

This means that teaching with the network version has to be guided by a teacher. The teacher – using the simple **LANGMaster** Network Manager program – decides which group of students will use the **LANGMaster** TANGRAM services and which lessons of the **LANGMaster** Course they will use. The preparation of the lesson is extremely simple and takes only a couple of minutes, including the copying of two or three lessons from the CD-ROM.

Global Partners

We take the content to its markets

Making business to business partnerships is vital to your growth.

Work with the best!

Any business, large or small, must strive to reach its customers, create a unique position in its specific markets, and create sustainable business growth. Global Partners is an agency focused on establishing international contacts among companies in the multimedia publishing industry. Global Partners founders have long experience in multimedia development, localization, internationalization, republishing and distribution of multimedia products and has developed a broad network of SW development, localization and distribution partners worldwide. If you have an interesting multimedia or software product to sell abroad, want to expand to new markets, need development or localization of a multimedia title on contract or require an independent market evaluation especially in emerging markets, you need the services of Global Partners.

Multimedia Republishing & Distribution

Global Partners has developed a wide network of republishers and distributors in Central and Eastern Europe, the Far East, Africa, South America, and the Middle East, waiting for your products. The business models used can vary from the distribution of shrink-wrapped products to rights transfers, when the republisher markets the product under its own brand name. Global Partners can arrange the entire process. We can help you design the content of your republishing kit - we know what information republishers need to decide on the rights purchase. We can also create the localization and/or translation kit if the localization is to be done by the republisher.

Multimedia Development

Global Partners has extensive experience and development resources for creating software and multimedia products. Take advantage of our affordable and high-quality product development services that can create products on contract based on your detailed product specifications. In addition, we can design and create entire products to fulfill any software or multimedia content ideas you may have. The development can be then realized in a wide range of environments, from standard multimedia development tools such as Macromedia Director to custom engines developed in C++ or Delphi, on almost any platform. And through the entire process, our professional project managers will keep you informed and in control and will make sure that the product is fully localizable.

Multimedia Localization

Global Partners experienced localization team will ensure that your product is fully localized. We have a long and successful history of providing localization services worldwide for many multimedia publishers and republishers including the leading companies in the industry. We provide a full range of services including translations, audio recordings and casting, technical integration work, testing and, as always, we provide the most professional project management.

Multimedia Internationalization

Does your product exist only in your local language? Have you been successful in your local market and are looking to go abroad? You will need to provide a translation and localization kit, and a republishing kit, with all the information necessary to do business with your potential republishers in a professional manner and according to industry-standards. We can help.

Consulting Services

Thanks to our wide network of partners in almost any market you could wish to expand to, we at Global Partners have a very good feel for specific market environments, know the chance of success for your product, what distribution channels will work, what cultural issues matter, relevant market regulations and many other necessary, yet hard to find information. We can offer you an independent market evaluations, market-specific product testing, distribution and marketing strategy development, as well as custom studies and services.
