Program description

AEP2005 Pro is a files encryption utility for Windows. It can encrypt, make self-executable encrypted files, securely delete files and work with ZIP archives.

AEP2005 Pro features:

- Using 17 powerful encryption algorithms to encrypt your data: DESX, BLOWFISH, RIJNDAEL(AES), CAST, 3-DES, RC2, DIAMOND2, TEA, SAFER, 3-WAY, GOST, SHARK, SQUARE, SKIPJACK, TWOFISH, MARS, SERPENT.
- Complete ZIP archives support (creating .zip archives, extracting ZIP contents)
- Making self-extracting encrypted executable files to send it via e-mail to people who do not have AEP_YEAR_
- Built in file shredder - i.e. wiping the contents of the original pre-encrypted file beyond recovery to make sure that not even a trace remains after shredding. (matching and exceeding the specifications of the U.S. Department of Defence) to stop hardware recovery tools.
- Ability to send encrypted files and selfextractors via email (MAPI)
- Ability to encrypt text to send it via your favourite e-mail program like Outlook Express, Eudora, ICQ and etc
- Integrating with Windows (TM) Explorer. I.e. ability to encrypt/decrypt/shred files directly from Explorer context menu
- Complete command line interface support
- Ability to assign a riddle with your password inside encrypted file
- Built-in packer to reduce a size of encrypted files. So, AEP2005 is not only encryptor, but tool like WinZip!
- Skins support! And 12+ nice-looking skins for program.
- User-Friendly easy-to-understand Graphical interface designed to hide the complexities of encryption technology from the end user.

What's New

* See History.txt

Installation

- Copy the distribution kit into the temporary directory and run setup.exe
- Note: If you've got AEP2005 Pro not from its web page, but from the other source (magazine CD or some software library), please visit its home page at www.secureaction.com - you'll probably find the later version.
- If you need to reinstall AEP2005 Pro or Windows and want to save your settings, run batch-file SaveSettings.bat (you'll find it in the AEP application

directory, usually in C:\ProgramFiles\AEP2005 PRO) before. After reinstallation run RestoreSettings.bat to restore previously saved settings.

System Requirements

- Pentium 166 based IBM PC compatible computer (or higher)
- 32 Mb of free memory
- About 1900 Kb free disk space
- Microsoft Windows 9X/Millennium or Windows NT 4.0/2000
- A mouse

Order

- AEP2005 PRO is a trial software. It's fully functional during trial period, but some restrictions on file size are used. See Order.txt for order details.
