FLASH CARD ADVICE

To make flash card quiz, fill in both the front and back of the flash cards.

When you take the quiz, you'll first choose whether you want to see the front or back of the cards. When you see a card, type the information that belongs on the other side

Tips:

- Try to use one or only a few words on each side of the flash card to make it easier for the computer to judge your answers

- When you take the quiz, you will be shown all the flash cards, so don't write more than you want to take.
