Alphanumeric Keys ³

1	Select identification	I	Geometry line (Submenu)
2	Select complete	J	Edit properties
3	Deselect identification	K	Circle (Submenu)
4	Deselect complete	L	Line (Submenu)
5	Invert identification	M	Dimension (Submenu)
6	Invert complete	N	Restart command
7	Conditional selection identification	O	Circular arc (Submenu)
8	Conditional selection complete	P	Polygon (Submenu)
9	Conditional deselection identification	Q	Identify selected objects
0	Conditional deselection complete	R	Hatch objects (Submenu)
A	Zoom section ^o	S	Zoom page ¹
B	Zoom overview ¹	T	Trim objects (Submenu)
C	Drawing list	U	Trim curve (Submenu)
D	Rotate objects (Submenu)	V	Use previous identification
E	Edit text	W	Move objects (Submenu)
F	Trim area (Submenu)	X	Text (Submenu)
G	Tangent (Submenu)	Y	Insert block / symbol
H	Command queue	Z	Zoom named areas

Umsch + 2	Enlarge window 2	Umsch + M	Mouse button usage
Umsch + 3	Enlarge window 3	Umsch + Q	Identify all objects
Umsch + 4	Enlarge window 4	Umsch + S	Status window on/off
Umsch + A	Settings display	Umsch + T	Change key assignment
Umsch + B	Settings screen	Umsch + U	Set origin
Umsch + F	Settings colors	Umsch + W	Toolbox on/off
Umsch + G	Settings output	Umsch + Y	Symbol window on/off

Function Keys

	Key only	Shift + Key
Esc	Previous point	Restart command
F1	Help	Load drawing
F2	Switch arc direction	Save drawing
F3	Display grid on/off ¹	Save drawing as
F4	Position grid on/off ¹	Print drawing
F5	Switch area mode	Zoom section ^o
F6	Snap on/off	Zoom overview ¹
F7	Duplicate on/off	Zoom page ¹
F8	Direct coordinate input ¹	Zoom original size ¹
F9	Assistant geometry on/off	Line patterns
F10	Identify all objects	Pens

F11	Use previous identification	Coordinate systems °
F12	Identify selected objects	Layers °

Shift Keys

	During point entry	During object identification
Shift	Short-time (de-)activation of Snap	Identification via area entry
Control	Short-time (de-)activation of Duplicate	Identification of multiple objects / areas
Alternate	Activate menu	Activate menu

Cursor Movement Keys

⌵	Move view area one step (5-100%) to the left ¹
⌶	Move view area one step (5-100%) to the right ¹
⌴	Move view area one step (5-100%) upward ¹
⌵	Move view area one step (5-100%) downward ¹
Home	Move view area one page (95%) to the left ¹
End	Move view area one page (95%) to the right ¹
Page ⌴	Move view area one page (95%) upward ¹
Page ⌵	Move view area one page (95%) downward ¹

Keys in Numeric Keypad

Num ÷	Zoom undo ¹
Num ×	Move center of view area to current mouse position ^{1 2}
Num -	Zoom out (factor 0.5) ^{1 2}
Num +	Zoom in (factor 2.0) ^{1 2}

Other Keys

Tab	Command selection (if Shift is pressed: Digitizer function menu)
Enter	Direct coordinate input ^{1 3}
Space	Window refresh (together with mouse buttons: change Zoom) ¹

	Key only	Shift + key	Ctrl + key	Alt + key
Backspace	Undo ³		Redo	Undo
Ins		Insert	Copy	
Del	Delete objects	Cut		

Mouse Buttons

	Inside a drawing area	Within other screen areas
Left	Point entry / object identification	Press button
Middle	Snap on/off ³	
Right	Cancel command / Popup menu ³	View corresponding settings

^o = Applies to the active window

¹ = Applies to the window the mouse is in, else to the active window

² = Works only if the mouse is inside a drawing area

³ = Key can be re-defined by the user

View / Zoom

Command	Possible key combinations ¹	
Move view area one step (5-100%) to the left	←	
Move view area one step (5-100%) to the right	→	
Move view area one step (5-100%) upward	↑	
Move view area one step (5-100%) downward	↓	
Move view area one page (95%) to the left	Home	
Move view area one page (95%) to the right	End	
Move view area one page (95%) upward	Page ↑	
Move view area one page (95%) downward	Page ↓	
Move center of view area to current mouse position	Num ×	
Zoom out (factor 0.5)	Num -	
Zoom in (factor 2.0)	Num +	
Zoom undo	Num ÷	
Zoom section	Shift + F5	A
Zoom overview	Shift + F6	B
Zoom page	Shift + F7	S
Zoom original size	Shift + F8	
Zoom named areas		Z

Enlarge window 2	
Enlarge window 3	
Enlarge window 4	
Windows refresh	Space

Shift + 2

Shift + 3

Shift + 4

Selection / Object Identification

Command	Possible key combinations ¹
Select via identification	1
Select complete	2
Deselektieren via identification	3
Deselektieren complete	4
Invert via identification	5
Invert complete	6
Conditional selection via identification	7
Conditional selection complete	8
Conditional deselection via identification	9
Conditional deselection complete	0
Identify all objects	F10
Use previous identification	F11
Identify selected objects	F12

Shift + Q

V

Q

Clipboard

Command	Possible key combinations ¹
Cut	Shift + Del
Copy	Ctrl + Ins
Paste	Shift + Ins

Settings

Command	Possible key combinations ¹
Switch arc direction	F2
Display grid on/off	F3
Position grid on/off	F4
Switch area mode	F5
Snap on/off (permanently)	F6
Short-time (de-)activation of Snap	Shift
Duplicate on/off (permanently)	F7
Short-time (de-)activation of Duplicate	Control
Geometry on/off	F9

Point Entry

Command	Possible key combinations ¹
Enter point via mouse	Left (mouse)

Enter point via coordinates	F8
Undo last point entry	Esc
Cancel command	Right (mouse)
Restart command	Shift + Esc
Short-time (de-)activation of Snap	Shift
Short-time (de-)activation of Duplicate	Control

Enter

N

Object Identification

Command	Possible key combinations ¹
Identify object by clicking with mouse	Left (mouse)
Identify object via coordinates	F8
Undo current identification	Esc
Cancel command	Right (mouse)
Restart command	Shift + Esc
Enter area instead of clicking onto single objects	Shift
Identify multiple objects resp. areas	Control

Enter
