BACK ISSUES

INSTALLING TRUETYPE FONTS

Installation of a TrueType font with System 7 is simple. Drag the TrueType suitcase to your System Folder and drop it in. That's it! You may load your application to start using the new font.

You may also *double-click* the suitcase before installing to see a preview of the new font.

NOTE: IF YOU ARE USING SYSTEM 6 YOU WILL NEED TO ACQUIRE THE TRUETYPE INIT FROM APPLE.

INSTALLING TYPE 1 FONTS

System 7 users, copy the Type 1 icons to your System Folder.
System 7 will place all the files in the correct folders.

System 6 users will need to copy the printer icon to the System Folder. To install the suitcase will require Font/DA Mover to copy the screen fonts to your System file.

SYSTEM EXTENSIONS, CONTROL PANEL DEVICES, APPLE MENU ITEMS

To use these with either System 6 or 7, copy the System Extension, CDEV, or Apple Menu Items (Desk Accessory) to your System Folder and reboot.

CDEV's (CONTROL PANEL DEVICES) can be accessed by using the  Apple Menu and selecting the CONTROL PANEL option. This will bring up a list of your currently installed CDEV's. Locate the CDEV you copied to your System Folder and *double-click* it.

EXTENSIONS work a bit differently. When you restart your Mac, they stay resident in memory to perform a certain function. To obtain instructions on a particular Extension please read through any document file included. **Note:** If you have moved an Extension and it is not loading when you restart your Mac, verify that it is selected, using the Extension Manger Extension.

APPLE MENU ITEMS are accessed by pulling down the Apple Menu and selecting it. System 6 users will have to use Font/DA Mover to add the DA to there System file.

HyperCard Stacks

Using HyperCard stacks is as easy as *double-clicking* . If you receive an error message similar to the following:

you do not have either HyperCard or the HyperCard Player installed on your system.

HyperCard and the HyperCard Player are available through your local software reseller or for a reseller near you call Claris Corporation directly at (800) 334-3535.

GENERAL INTEREST

Best Mac Internet Sites

by Adam Wunn

This exhaustive compilation of FTP sites is like a road map of the Global Information Superhighway! It includes 50 sites listed with program types, including the grand-daddy of all FTP sites (Sumex.Aim.Stanford). It even covers the basics such as how to get connected and which software is best.

ColorLauncher

by Jim Briggs

Some applications need to be run at specific screen depths (256 colors, 1,000s of colors, etc.) and still others look best at certain depths. Now, with ColorLauncher, you can configure applications to automatically launch in specific depths! It's fast and easy — just configure it once and then launch the applications through ColorLauncher from then on!

Computer Ed 'Zine #4

by CZO Company

Electronic Magazines, or E Zines as they're known, are showing up all over the Internet — and this is one of the best we've seen! Computer Ed 'Zine covers computer topics every Mac user needs to know. This issue includes reviews of Aldus SuperPaint and 4D Boxing, and hot topics like news, information and rumors. Look for future issues every month — right here!

Computer Ed 'Zine #5

by CZO Company

Fantastic! You'll love the QuickTime rendition of Amazing Grace by David Bagno. Read all about the new MicroRecorder Pro and Space Joust, and the reviews on the latest shareware utilities. Don't forget to check out "Art Gallery" and "Flotsam and Jetsam" for excellent art, music and poetry! All this and more in the latest issue of this excellent electronic magazine!

Dampen

by Grieser Technologies

Dampen is great when you need a simple drawing program that doesn't hog memory. Despite its simplicity, Dampen is extremely handy. It's perfect for creating quick freehand drawings!

Disk Wizard

by François Pottier

Catalog disks the easy way with the Disk Wizard! Once you drag the Wizard INIT

onto your System Folder, your disks are automatically cataloged! It catalogs floppies, CDs, hard disks and even removable hard disks!

DtpPatterns

Tropicals, roses, mums and more! Spice up your desktop with these floral “clippings.” Just open your Desktop Patterns Control Panel (System 7.5 only) and drag the clippings you want onto the open Control Panel window. Then click on “Set Desktop Pattern” — the pattern appears on your Desktop. To preview the files, simply double click on them.

PayCheck

by Joe Helms

Calculate your weekly take home pay with this handy application. It’s simple! Just enter your pay rate, filing status and deductions, and PayCheck gives you a quick guesstimate of your net pay.

PictShow

by Oliver Dreer

Now you can view and play your favorite PICT and GIF picture files, System 7 sound files and QuickTime movies. It’s easy to add files, get additional information or even play your own slide shows!

Program Switcher

by Michael F. Kamprath

Switch between running applications the easy way — it just takes a key combination! To activate, drag the appropriate Program Switcher Control Panel (68K or Power Mac) onto your System Folder and restart. To switch between open applications simply hold down the Option key while pressing the Tab key.

QT Synthesizer

by John Stephen

Attention all music lovers! Now you can play the musical instruments built into QuickTime v2.0 from your keyboard with this small, powerful application.

NOTE: We recommend that you have the QuickTime Musical Instruments extension installed (it’s available on the System 7.5 CD ROM) and QuickTime v2.0.

Sales Tax and Income Reports

by Ken Schles

Here’s an application no retail business can do without! Track your income and collected sales tax — your quarterly sales tax returns will be a breeze! Also allows exporting data to Quicken and data graphing!

Sparkle

by Maynard Handley

Use Sparkle to play MPEG movies, PICT files and QuickTime movies. Sparkle even converts between these formats! It's especially useful for converting and playing movies created on IBM PCs.

Times+

by Daniel L. Taylor

Time phone calls, project hours and client billing info with Times+! You can even time multiple events simultaneously! It also tracks elapsed time — even when your computer's off!

Trilogy Promo

by Logistique

By special arrangement, we are pleased to bring you this FREE Contact Manager! Trilogy is the complete office software solution. This version includes the free Contact Manager and demonstration versions of the other business modules. To call Trilogy full featured is an understatement. Check it out! Use Contact Manager to create and sort lists of contacts — if you have a modem, it even dials the phone for you!

Shareware Utilities

Here's a group of indispensable Shareware Utilities no Mac Power User can do without.

BijouPlay

by MUSI Computer Products

By far the fastest and finest movie player for Macintosh!

Chiron

by Rob Cummings

Stand-alone list of Macintosh error codes. Put it in your Apple Menu items folder and it'll be there when you need it most!

Disinfectant

by Northwestern University

Scan for and remove viruses from all of your disks! You can even install a protection program to prevent future infection!

Graphic Converter

by Thorsten Lemke

Open, edit and convert every picture format from GIFs to TIFFs with this handy utility.

Fontview

by Simon Brown

Display the key map of any font with this Desk Accessory.

HowHearThis

by Glenn Koral

Play just about any kind of sound file or convert sounds to System 7 double-clickable sounds!

PICTuresque

Zoom, copy, paste your favorite PICT, PNTG, or EPS files.

Quill

by Sergio Villone

You can view your documents with Quill.

Software FPU

by John M. Neil

Emulate a Floating Point Unit with this handy system Extension.

Stuffit Lite

by Alladin System, Inc

Compress and extract files, or create self-extracting archives.

The TypeBook

by Jim Lewis

This program aids in the creation and maintenance of a typeface reference book.

DESKTOP PUBLISHING

Bright Ideas

EPS Clip Art

a Software of the Month

Club exclusive!

This folder contains original

clip art from the talented individuals at Bright Ideas. These images are guaranteed to please! This month's collection includes boxers, a businessman, a Frisbee-catching dog, a boy going fishing, a grass-hopper, two motocross motorcycles and a royal border. For more information about Bright Ideas, call Member Services.

Font O' Matic

by John Hogan

Font O' Matic is a quick and easy way to keep track of what your fonts look like.

Just Put an alias in your Apple Menu Items folder (within your System Folder) and you can instantly bring up a pop-up menu to display any of your fonts. You can then switch sizes and fonts via a handy pop up menu! Very useful!

Frosty

by Neil Schulman

What a great Photoshop plug-in filter! This one creates a frost effect using your background color. If that color is white, it looks like Jack Frost has been nipping at your document!

PrintChoice

by Kerry Clendinning

Choose from multiple printers or change printer options quickly and effortlessly with this handy Control Panel. Just drag the PrintChoice icon onto your System Folder, restart and you're ready to go!

QuarkXPress

Training on CD sampler

We are happy to present, by special arrangement, this exclusive QuarkXPress tutorial. View these full color movies and find out how to get the most from QuarkXPress! This month's installment includes two QuickTime presentations: "09 Cut/Paste/Copy" and "10 Shift Key."

NOTE: You can play these movies even if you don't have Apple's Movie Player, because we've included an excellent shareware movie player called "Peter's

Player” — at no extra charge! Peter’s Player is located in the same folder as the tutorials.

Training on CD Sampler

This month we begin three new tutorial series for Adobe Illustrator, Aldus/Adobe PageMaker and Adobe Photoshop. These insightful and comprehensive tutorials represent a new way to improve your computer skills and knowledge.

*Special Note: We have included "Peter's Player", an excellent shareware movie player program, so you can play these movies even if you don't have Apple's Movie Player. Peter's Player is located in the same folder as the tutorials.

BeachType

by David A. Mason/On The Beach Surf Shop

Like, hey dude! This font is TOTALLY GNARLY! If you want to say it with style, use this all caps sans serif font. And don't wipe out! (Type 1 and TrueType)

Typographers' Ornaments

by The Underground Grammarian

Typographers' Ornaments are reproductions of original type metal castings of the type printers used for letterpress printing. The ornaments are in EPS format so they can be they can be scaled and used in color or black and white.

FONTS

Baphomet

by Scriptorium Font Library

Do you remember being scolded for having writing that looks like chicken scratch? Baphomet is what chicken scratch aspires to be! It's rough around the edges, squiggly and sort of weathered, but it definitely has character!

Type 1 and TrueType fonts

Beautiful Ink

by Dixie's Delights

Big is beautiful, and this font is beautifully big! It's perfect for initial capitals or even whole words in poster and design work. Use it in the biggest size possible — you'll see this font in all of its splendor! (Type 1 and TrueType)

Chili Pepper Dingbats

by Michelle Dixon

Need some great looking chili peppers to add a Southwestern flair to your documents? Well here they are! For a great example of how to use these dingbats

with color be sure and read the “Secret Ingredients!” document inside this folder!
Type 1 and TrueType fonts

ComicsCartoon

by Pat Snyder

This great captioning font is really three all caps fonts in one! The first set uses the lower case keys, the second the shift keys and the third the option and shift keys. Try all three styles to convey different moods in captions or in eye-catching headlines!

TrueType font

Freebats

by Russ Rowlett

Awesome arrows, beautiful bullets — even the Apple Command symbol! All this and more in this extensive collection of dingbats and symbols. Add the finishing touches to your documents with Freebats! (TrueType)

Odin

by Edward Leach

This carefully crafted serif font is thick and bold with hard, geometric lines and squared off letters. Use Odin for headlines when you want to grab your reader’s attention!

Type 1 and TrueType fonts

Timotheus

by Tim Rolands

This bold serif font is perfect for body text and captions. Try it as a substitute for Palatino or Times. (TrueType)

Zabdiel

by Scriptorium Font Library

Zabdiel is a futuristic looking all caps font with graceful curves and thin lines. It resembles computer writing, but with more style!

Type 1 and TrueType fonts

GAMES

Abalone

by Peter Tax

Abalone is an intriguing board game in which the object is to push your opponent's marbles off the game board. It's sort of like king of the mountain, but with marbles! Play against the computer or human opponents in two or three player games. *Hot Tip: Try not to let the computer opponent drive a wedge between your marbles or you'll end up getting pushed off the board!

Alice

by Linda Frasier

Alice is a plug in for Hearts Deluxe (Volume 196). Now you can play Hearts with Alice, the Queen of Hearts and the Mad Hatter! Just don't shoot the moon!

Assault on Giant Mountain

by Tim Phillips

Assault on Giant Mountain is the third scenario for Realmz, the fantasy role-playing game included on Games Volume #206. In this scenario, your adventurers must go to King Bradwick in Specularn and plan an assault on Giant Mountain to stop the villainous monsters who threaten the human population of Realmz. To play this scenario, simply copy the entire folder to the Scenarios folder in the Realmz folder.

Blox

by Danny Espinoza

This Tetris clone features great color graphics and fantastic music! You can even customize the music! If you think you've mastered Tetris games, think again! Hot Tip: The difference in the way some of the blocks rotate is subtle, but watch out! The differences are important!

ColorLauncher

by Jim Briggs

Some applications need to be run at a specific screen depth (256 colors, 1,000s of colors, etc.) and still others look best at certain depths. Now, with ColorLauncher, you can configure applications to automatically launch in specific depths! It's fast and easy. Just configure it once and then launch the applications through ColorLauncher from then on!

Dirt Bike v2.1

by Brad Quick

You can't improve a game this great. Or can you? Dirt Bike v2.1 now lets you race

against opponents! Grind the record holder into the dirt or just compete against your last game! But that's not all! Now you can also use gyration while you're in the air!

Hot Tip: Gyration is the key! If you're about to endo (flip forward), gun the throttle and you'll straighten out!

Dirt Bike v2.1 Extras

Dirt Bike is great, but you want more, right? Well, we give you more! More tracks! More bikes! Just put these track and bike files in your Dirt Bike Folder. While you're at it, be sure and install Dirt Bike v2.1!

Hot Tip: To try out these bikes and tracks, open the files from within Dirt Bike and then load the bike and track you want to use! (Try the Diablo — you'll like it!)

Gold Digger

by Tad Woods

Your character must make it through the Lost Mines with all of the gold! Great music and sounds accompany your subterranean adventurer. Whenever anything unfortunate happens to him, he makes hysterical sounds!

Hot Tip: Plot your strategy before you blow anything up or you might trap yourself.

Grunt

by ForMac Software

Originally intended for commercial distribution, Grunt features high-quality graphics and fast game play. You guide a pig through multiple maze-like levels where you encounter numerous foes and there's even a store! (It's very tough to find!) *Hot Tip: Read all of the scrolls! They contain crucial information!

Realmz Extras

Here are numerous extra characters for Realmz (see June 1995's CD-ROM). These have enhanced powers and strengths. Copy them to the Character Files Folder in your Realmz Folder. Then, you can add those characters to your party the next time you play.

Smile! The 'Splattering

by Greg Katsoulis

Smiley never has a good day. All he does is sit there minding his own business, happily blowing kisses at you and sending you happy love messages. Then along you come to mangle and pulverize him in horrible ways. Why? Because it's fun!

Caution: Smile graphically depicts violence against a cartoon character. Parental discretion is advised.

Swoop

by Ambrosia Software

Swoop! There it is! Ambrosia's done it again with this arcade-quality alien shooter! The object is to destroy wave after wave of pesky alien swoopers using your wits and your George Pal Class Fighter (a veteran of many B-Grade battles). Your only hope is that you can get some of the many power-ups, including shields and rapid fire shooters. It's not a matter of whether the Swoopers will get you, but when!

*Hot Tip: Only shoot the two yellow ships when they are moving and you'll be rewarded with bonus points and power-ups!

System's Twilight

by PlayMaker, Inc.

Once, the System was perfect and complete. The programs ran and the data flowed. But those times are now only legend. System's Twilight is an abstract puzzle and fantasy that pits you against various riddles inside a computer. The object is to solve the various puzzles and make your way through the System, restoring harmony as you go.

TwoWild

by Steve Breish

Like to play Deuces Wild video poker? Have we got a game for you! TwoWild is small enough to run from your Apple Menu, yet it features great graphics and fast animation! Just store this game in the Apple Menu Items folder in your System Folder and it'll be there to help you fight boredom the next time you're on hold!

*Hot Tip: If I had a hot tip for video poker, I'd be in Vegas raking in the dough!

Unite

by Kevin L. Gong

The object in this strategy game based on Lines of Action is to unite your pieces. If you liked Reversi and Pente, you'll love Unite! You begin with your pieces on two lines opposite each other. The fun starts when you try to cross the board while your opponent does the same! It's a bit like trying to cross a freeway during rush hour!

Zark

by Joshua Glazer

This one or two player space shoot'em up features rendered sprites and backgrounds, and fast, furious action. Choose your special skill and start shooting! NOTE: Must be launched in 256 colors!

KIDS

Clickies!

by Ron Dandy

Clickies are big colorful objects for your child to play with. Click on them and they respond with sounds and animations. Guaranteed fun for younger kids! Make sure you click on the center clickie more than once for a surprise!

ElectroConfig

by Shawn Morrison

ElectroConfig is a visual learning tool that draws illustrations of the atomic structure of the elements. To see what an atom looks like, just enter the atomic number or name of an element and a diagram shows what the element looks like. Facts for the selected element are also displayed including atomic weight, valence and charge. If you have 3D glasses, this program even has an option to display in 3D!

Lots of Neat Cow Games

by Sam Kunkel

If you like cows, you'll love these three fun cow games in one! You can eat snack food treats in HoHo Munchers or you can search for the Coo-Mow (invisible cow) in Coo-Mow Finder or you can even race a cow against a donkey in CowRacer! Fun for cows and kids alike!

Maze Land

by Nao Cat

Find your way through intricate mazes, climbing through holes, opening doors and avoiding numerous deadly obstacles along the way! *Hot Tip: many halls and doors look alike. Pay attention to landmarks along the way!

Sight Word Pro

by Educational Computer Resources

Teach vocabulary and spelling the fun way with Sight Word Pro! First, create a word list by typing in words and pronouncing them (requires a microphone). Then your child tries to match the pronunciation with the correct word. This program, unlike its predecessors, does not require MacinTalk or PlainTalk. To use it, all you need is a Macintosh compatible microphone.

Space Sentinels

by Doc Jeffries

Welcome to a world of excitement and fast-paced adventure! Space Sentinels is a

Sci-Fi adventure book geared to kids. Each chapter includes buttons to play sound effects appropriate to the story so your child will be in the midst of the action! Inspire a love of reading the fun way!

TypingTutor Jr.

by W. Rogers

The fun and easy way to teach your school age youngster how to type! Drills include free typing, word drill, letter clinic and word clinic. TypingTutor Jr. rapidly improves typing ability by working on basic skills first and then strengthening specific weaknesses through the drills.

Unscramble

by Educational Computer Resources

Unscramble words to increase your child's spelling skills! You can even go head to head in a two player bee game! This updated version is now accelerated for Power Macs and it even includes a new two player mode! Now players of different ages and abilities can play with two different banks of questions!

SIX QUICKTIME™ ANIMATIONS/USE DICK & JANE READER TO VIEW AND LOAD THE QUICKTIME™ EXTENSION (THIS IS NOT PROVIDED)

FIFTEEN MOD MUSIC SOUND-TRACKS/DOUBLE-CLICK THE PLAY LIST TO HEAR THEM.

Each **Software of the Month Club®** CD-ROM will NOW include a selection of program categories from our popular SRI list. In addition to the normal selection of software from our Games, General Interest, Kids and DTP clubs you will now receive programs from the SRI. What this means is that you can be assured that when you use a program from the SRI you know that it is the highest quality. Why? Because the SRI is a list of our most popular software. Below is a list of topics and descriptions in this month's issue.

COMING NEXT MONTH...

GENERAL INTEREST

Business

Bill-IT™

A feature-filled integrated billing and invoicing system for small businesses and organizations.

Easy Envelopes+

Now you can create and print envelopes quickly and easily. You can even import addresses from other programs.

First Things First™

This indispensable accessory helps you monitor and manage your time.

LetterHeader

Now you can place your letterhead on documents — right from your Print dialog box!

FMP Tutor

An excellent HyperCard tutorial for FileMaker Pro.

Mortgage Manager

Calculate amortization, interest charges and create an accurate pre-payment schedule.

Tradex

A professional quality stock management application.

QuickSHIP

Keep track of your shipping records, maintain customer lists, and quickly calculate shipping totals.

Telecommunications

MacLHA

This allows the compression/decompression of .LHA and .LZH files on the Macintosh.

UULite

Use this program to UUEncode binary files and UUDecode encoded files for Internet E-Mailing.

Utilities

Stufft Expander™

Extract and decompress Stufft archives quickly and easily.

Stufft Lite™

Compress and extract files, or create self-extracting archives.

CatFinder

By using CatFinder, you can quickly find which disk contains a desired file and even launch the file from within CatFinder.

Dumpster

Customize your Trash icon.

My Icon Editor

Create your own icons.

ShrinkWrap™

Create, write and mount disk images.

FloppySystem Trimmer

Reduce the size of files required on bootable system disk.

QuickFormat!

Format and duplicate disks with unparalleled speed and ease of use.

GURU

Here is your all-in-one upgrade guide for the Mac.

Mac Repairs

This hypertext guide contains information on all of the care and routine maintenance you can do for your Mac.

GAMES

-Adventure

Arena of Death

Arena is a strategy/fighting game in which you shop for weapons and accessories and fight various computer opponents.

Darkwood

Defeat the Red Dragon to become a city guard.

Digital Messiah

Traverse colorful mazes and challenge the denizens to deadly battles in this ingenious game.

Exile

Try to survive in the world of the exiled!

Galactic Trader

Try your hand at intergalactic business.

Odyssey folder

Guide your character through the role-playing world of Odyssey and conquer your enemies.

Medieval Empires

Become a medieval monarch and be a part of the rise of the great Old World empires in this adventure game.

Realmz

Explore medieval worlds in this, the best role playing game for the Mac!

Shadow Keep

Excellent role-playing game.

Spacestation Pheta

Guide your man along ladders, platforms, slides and cannons to obtain the key needed to exit each level.

KIDS

-Education

Algebra II Made Easy

This small application simplifies the world of algebra by giving examples of quadratic, vertex, and distance equations.

HyperGeometry

Learn about Geometry the fun way with this HyperCard stack.

Math Stars

Math Stars employs positive rewards to keep your child's attention and make math

fun!

MathFlashBash

The sure cure for Math anxiety!

Breeder

Breed full color aliens to achieve an alien with the desired characteristics.

Grand Wazir

Full featured software system for teachers.

Colors

Colors helps your child memorize the spanish names for seven common colors.

FlashWorks

A superb flash card program for learning foreign languages! Includes databases for German, Spanish, French, Greek and Hebrew.

This section of the CD-ROM is where you will find specialty software. In this months selection we have chosen Icons. Look for more **BONUS** sections in future CD-ROM shipments.
