

Microspot Interiors Install/Un-Install Instructions

Install

To install the Microspot Interiors software, simply drag the "Interiors" folder to the desired location on your local machine.

You can then proceed to launch the Microspot Interiors application where you will be prompted to enter your serial number. You will only be prompted for this information on first launch.

Un-Install

To un-install the Microspot Interiors software, simply drag the "Interiors" folder on your local machine to the trash.
