

This game is shareware ! \$10

We could have easily locked the game and made playable only 10-15 rooms until you pay the fee. We didn't. We expect people who play to be honest- please pay if you play !

Registered users will receive instructions how to get rid of the shareware message. Also they will receive (upon request) a little cheat application which makes life easier- more ammo, more health, transporter, invincibility etc.

Registered users will have a chance to become our beta-testers for a new game (doom/marathon like) we are working on.

Send your fee to:
