

What is it?

It's a mixed bag! Interesting stuff we thought you'd like and that wouldn't fit anywhere else. Mostly it's Multimedia, the catchword of the 90's! Every month it's something different. Sometimes it'll be a multimedia resume. Other times, maybe an interactive promo or even a bit of multimedia art.

How do I use it?

Explore! Click on things. Try them out. They won't bite! We promise.

Where does it come from?

Everywhere! The Global Information SuperHighway! From your backyard to the other side of the world!

Enjoy!
