CompuRoc v2.0.1

by Doug Wade

Blast off with this model rocket flight and performance simulator. Enter information about your rocket, including mass and density. Customize the environment with details like atmosphere, wind and gravitational force. Choose an engine (or multiple engines) and launch your rocket. Graph and print your rocket's performance.

Emergo

by Christiaan Freeling

Learn the challenging game of Emergo with this comprehensive text document. This two-player game is played on a hexagonal game board. You must capture all of your opponent's pieces by jumping on them. Because captured pieces stay on the board, they can be recaptured. Includes complete rules and sample situations.

Guide to the Artists

by Iverson Software

Learn about the most famous artists of all time. This comprehensive guide contains biographies on more than 600 artists, like Andy Warhol, Beatrix Potter and Leonardo da Vinci. Click on an artist's name and information appears, including a brief life history and a list of their most famous works.

IQ Booster v1.0

by White Sands Multimedia

What's your IQ? This program contains four tests that determine your IQ within 10 points! You also get detailed information about intelligence, the two hemispheres of the brain and IQ tests in general. Use the program to determine your IQ or to prepare for IQ tests in the future.

LogoMation v1.1.1

by Chuck Shavit

Learn to write your own software with this easy-to-learn programming language. Logo is a programming language that was popular in the 1980s. Create animated pictures and synchronize them with sounds. There are plenty of sample programs and even a tutorial to get you started.

The Middle East v1.15

by Don Lancaster

Travel to the Middle East and quiz yourself on what you learn. Click on any country and its name and capital appears. Additional information like population, area, currency and primary export is included.

Pericles, Prince of Tyre

by Mark Zimmerman

Read the complete text to William Shakespeare's play, Pericles, Prince of Tyre. This HyperCard stack is arranged by scene to make it easy to read. Copy text directly from the stack and paste it into other documents. Search for any text, add bookmarks and take notes on any page.

Plant HyperTextBook

by Iverson Software

You'll blossom with this botanical file! This HyperCard stack contains information about more than 800 plants, including cornflower, mistletoe and yucca. Click on a plant name and a description appears. There are HyperText links for every description, linking you to related topics in this collection.

QuickCONGRESS v104F

by Copperhead Software

Find out about Congress and Senate members. This comprehensive database contains complete government information, including mailing addresses, phone numbers and E-mail addresses of every member of the House and Senate. Also, learn which representatives serve on committees and when their terms expire. Search by name, state, district and more. Write a letter to one or all representatives using the letter editor — even print mailing labels!
