

# DESKTOP PUBLISHING

Excalibur v2.2

by Rick Zaccone

Use this online spell checker and you'll never make a spelling mistake again. It checks all text documents — even the contents of the Clipboard. Create your own custom dictionaries. When an error is detected, it offers suggestions for the correct spelling.

EzHTML v1.2

by Benjamin Morrell

You'll hang ten as you surf the net with your own Web page. Create World Wide Web pages with this easy-to-use HTML editor. Pick type styles from the menu or the tool bar and the appropriate HTML code is added to your document. Create unordered, ordered and definition lists.

FontFinder v1.0

by Bishop Shareware

View all your fonts and find special characters with this handy utility. Choose a font from the menu and this program displays all its characters. Click on any character and it shows the letter's key strokes. Also, a conversion utility converts between inches, picas, points and centimeters.

HTML 101

by George Brothers

This file is all you need to get started in HTML programming. It contains information about how to script your Web page using basic HyperText Markup Language (HTML) commands. It also includes five drills to get you going and a sample HTML file that incorporates all of the drills.

# CLIP ART

# FONTS

Arwen

by Keystrokes

Remember the roaring 20s with this tall, thin font. (TrueType and Type 1)

Burrito

by Keystrokes

Yee hah! Add southwestern spice to your designs with this fun font. (TrueType and Type 1)

Courtraï

by Scriptorium Font Library

This calligraphy font conjures up images of knights, maidens and wizards. Create a medieval feel with its Old English flair. (TrueType and Type 1)

Fox

by Keystrokes

A fine font that's a bit rough around the edges. It looks as if it was written with a thick calligraphy pen or brush. (TrueType and Type 1)

Magdeburg

by Scriptorium Font Library

Elegance demands attention. This script style font is perfect for formal invitations and announcements. (TrueType and Type 1)

Puccini

by Jacques Bertrand

You can do wonders with this exquisite font family. Comes in regular, bold, italic and bold italic. (TrueType and Type 1)
