Excalibur v2.2

by Rick Zaccone

Use this online spell checker and you'll never make a spelling mistake again. It checks all text documents — even the contents of the Clipboard. Create your own custom dictionaries. When an error is detected, it offers suggestions for the correct spelling.

Grand Chess & Company

by Christiaan Freeling

Check out these cool chess variants. This document contains rules for Grand Chess, HexChad and others. These games are based on classic chess with different rules. Includes complete rules, examples and more.

Montana HyperTextBook

by Iverson Software

Travel to Montana from the comfort of your own home. This HyperCard stack contains information about this state, including landmarks, animals and people. Check out the grandeur of Glacier National Park. A similar HyperCard stack in this volume features New York.

New York HyperTextBook

by Iverson Software

Discover the Big Apple with this HyperCard Stack. Learn more than 200 different areas of New York — from Albany to the Hudson River to Yonkers. There are HyperText links for every description, linking you to related topics in the stack.

Professor Duck's Globe Quiz v2.2

by Eric Holsen

This quiz has global appeal. Information covers continents, oceans, longitude and latitude. When you finish, it shows complete results including correct answers.

QuizWhiz

by Tony Martin

Create your own multiple choice quizzes. Create a question, several possible answers and indicate which is the correct answer. When you are done creating the questions, you can take the quiz. You can even add information after each question, like the explanation of the correct answer. View or print your test results.

The Winter's Tale v1.0

by Mark Zimmermann

The complete text of William Shakespeare's play, A Winter's Tale, arranged by scene. Take notes on any page or set bookmarks to remember where you left off. You can even print any scene.
