Easy Incredible Magic v1.0
by White Sands Multimedia
Learn to perform magic tricks! This program teaches you some very easy-to-learn tricks.
It's got everything you need to know, including effect, preparation and the secret. You'll
be doing incredible feats of magic in no time.

Catch A Letter
by Iverson Software
Teach your kids letter recognition and typing skills with this HyperCard stack. A letter
falls from the top of the screen to the bottom. Your kids must type the letter before it
reaches the bottom. Choose between uppercase, lowercase and mixed case letters.

Follow v0.98
by Eelco van Beek
Test your memory with this Simon-style game. The computer plays a tone and flashes a
light. You must click on the light that flashes. The computer continues the pattern and
adds another tone to it. Change the speed at any time if it gets too fast or too slow. See
how far you can go!
