InBizness Hire
by LeSaux Media Services
Keep track of your employment process with this handy file maker. Keep a record of applicants for positions within your company. This database can be used to look up candidates for new positions that may have been overlooked. It can also be used as an employee database. Use in conjunction with InBizness Position, included in this volume.

MemoCards v1.3
by Umberto Salsi
Create memos and paste them all over your desktop. Minimize the notes to view the first few lines or maximize to view the entire note. It even arranges them on your screen to help keep you organized.

PayWindow
by ZPAY Payroll Software
Convert your payroll system to this easy-to-use banking program. Print checks, calculate pay periods and figure all forms of taxes. Review month, quarter and yearly reports. Keeps fantastic records.

QuickLOOKups
by Copperhead Software
Calculates United Parcel Service charges for the 48 contiguous states. QuickLOOKups handles packages, Blue Label letters via ground or air, and even calculates international air charges.

QuickTEXTBILL v1.28
by Copperhead Software
This is an ultra simple invoicing/Bidding/Accounts Receivable program. It was designed to allow small service firms, contractors and other independent provicers of services, such as consultants, a quick and easy method of keeping track of sales, bids and accounts receivable. QuickTEXTBILL was created for those who want to effectively manage their billing without dedicating thier lives to this activity
