

# Licensing Information

## Distribution

Although the engines are freeware, and can be freely distributed and used with other applications, MacAMP Lite application itself is distributed as shareware. If you like the program, and use it for more than 14 days, you have to purchase it by sending US\$10 to @soft (single user license; site and world-wide licenses are available as well). Otherwise, you must remove the program from your hard drive and discontinue its use.

Why register?

Your purchase will:

- Encourage the authors to continue working on MacAMP project;
- Give you \$5 discount for MacAMP full version;
- Get extra exclusive bonus appearance skins (look at the picture below);
- Get all future updates of MacAMP Lite for free;
- Remove trial warnings and 15 song limitation.

You can upload MacAMP Lite to online services and share with your friends as long as the original package kept intact. To put MacAMP Lite on a software collection CD-ROM, a free copy of CD-ROM for @soft is required; commercial distribution and bundling is available too. Please contact @soft for more information.

## Purchasing MacAMP Lite

You can purchase MacAMP Lite in two ways - online via the web or offline.

To purchase MacAMP Lite online, double-click on "Register Online" application that accompanies MacAMP Lite. Your web browser will open, leading you to the easy online purchasing form. Make sure you have a credit card handy. All online purchases are done

through the encrypted secure connection, providing maximum security for you.

To purchase MacAMP Lite offline, open the "Register" program that accompanies MacAMP Lite. Enter your name, your email address, and the number of licenses you desire for it. Save or Copy or Print the data from the Register program and send the data and payment to Kagi. More specifics on the Register program to follow.

Kagi handles @soft payment processing.

If paying with Credit Card or First Virtual, you can email or fax the data to Kagi. Their email address is sales@kagi.com and their fax number is +1 510 652-6589. You can either Copy the data from Register and paste into the body of an email message or you can Save the data to a file and you can attach that file to an email message. There is no need to compress the data file, it's already pretty small. If you have a fax modem, just Print the data to the Kagi fax number.

Payments sent via email are processed within 3 to 4 days. You will receive an email acknowledgement when it is processed. Payments sent via fax take up to 10 days and if you provide a correct internet email address you will receive an email acknowledgement.

If you are paying with Cash or USD Check you should print the data using the Register application and send it to the address shown on the form, which is:

Kagi  
1442-A Walnut Street #392-3YQ  
Berkeley, California 94709-1405  
USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies, the conversion rate for non-USD checks is around USD 15 per check and that is just not practical.

If you have a purchasing department, you can enter all the data into the Register program and then select Invoice as your payment method. Print three copies of the form and send it to your accounts payable people. You might want to highlight the line that mentions that they must include a copy of the form with their payment.

Kagi can not invoice your company, you need to act on my behalf and generate the invoice and handle all the paperwork on your end.

Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method. As far as we know, there is still no technology to transfer physical objects via fax or email and without the payment, the form cannot be processed.

Payments send via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.
