3-D SPEX™

Games Package

Pause

⚠ *WARNING!*

Pause a moment before you get started and heed the following warnings. Read your NuVision *3-D SPEX User's Guide* for complete safety warnings.

May cause seizures.

If you or anyone in your family has experienced seizures, or if you experience dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, unconsciousness, or disorientation, discontinue use immediately and consult your physician.

Do not use 3-D SPEX where loss of balance or limiting your field of vision could be dangerous.

Do not use near stairs, ledges, or balconies. You may risk falling during or after use. Never use 3-D SPEX if you already feel tired or ill.

3-D SPEX are intended for use only with a desktop computer system.

Any other use could result in serious injury or death. Do not wear 3-D SPEX as sunglasses or safety glasses. Never wear 3-D SPEX while driving, swimming, or operating machinery.

Not for use by young children.

Artificial stereo vision display may not be safe for children under seven and may cause serious, permanent damage to their vision.

Supervise your children when they use 3-D SPEX.

We recommend that you observe your children while they play PC games. Children may not always recognize physical signs of stress or injury.

Choking hazard: keep out of reach of small children.

The 3-D SPEX contain small parts. Babies and young children could choke on the glasses' removable nose piece. Keep the glasses out of the reach of small children.

Stereoscopic viewing may create a slight after effect in your vision.

Your visual system changes to accomodate wearing stereoscopic glasses. Wait a few moments for your eyesight to return to normal before resuming your regular activities.

Repetitive stress injury: avoid prolonged use.

Some people may experience fatique or discomfort after playing for long periods. Take at least a 15 minute break during every hour of play. If you experience discomfort, tingling or numbness in your hands or arms, stop and rest.
Electric shock hazard.

Don't use 3-D SPEX near water. You risk electric shock to yourself as well as damage to the 3-D SPEX.

Plug

To set up the 3-D SPEX:

1 Turn off your computer.
2 Plug the parallel port interface into a parallel port on your computer.
3 Plug the cord from the glasses into the back of the driver module.
4 Plug the AC transformer into an appropriate source of 120 V 60 Hz power and into the driver power connector.
5 Turn on your computer.
6 Install the game software by following the instructions on the game cards enclosed.

3-D SPEX™

Version 1.0

NuVision
TECHNOLOGIES, INC.

H388045-2

DESCENT™
II
Destination Quartzon™

DESCENT™

II

DESTINATION QUARTZON™

In Descent™ II: Destination Quartzon from Interplay™, you'll find yourself thrown into alien worlds populated by deranged robots determined to destroy you. It is your mission to fight through the robot hordes to each mine's main reactor. Destroying this reactor and escaping is your primary mission!

This card provides short but complete instructions for setting up and playing Descent II: Destination Quartzon.

Plug

Minimum System:

- IBM™ PC compatible 486-DX50 or faster, 8 MB RAM
- DOS 5.0 or later including MS DOS only mode of Windows® 95
- 2X CD-ROM
- 30 MB free hard disk space
- VGA video card and monitor
- Parallel (printer) port

Recommended:

- Pentium™-class processor with 16 MB of RAM
- SVGA color monitor that supports 100 Hz vertical refresh rate
- Video card that supports VESA 1.2 Bios in ROM (or VBE emulator)
- 4X CD-ROM or faster

To install:

1 Switch to MS-DOS. If running Windows 95, reboot in MS-DOS mode. If running Windows 3.x, exit to an MS-DOS prompt.

2 While in MS-DOS insert the Descent II: Destination Quartzon CD and type **D:** (or the appropriate drive letter) and press Enter to change to the CD drive.

3 Type **INSTALL** and press Enter. The installer guides you through the installation process. Be sure the VR Device is set to 3-D SPEX.

4 If the 3-D SPEX are plugged into a parallel port other than LPT1, run the SETLCDLP utility as described in the *3-D SPEX User's Guide.*

Play

To play:

1 Change to the directory where you installed Descent II: Destination Quartzon. For example, at the DOS prompt type **CD C:\GAMES\DESCENT2** and press Enter.

**2** Type **D23D** and press Enter.

2D images appear for the introduction, then 3D images appear after you are told to "PREPARE FOR DESCENT."

Once a 3D image appears on the screen, the lenses of the glasses turn gray, indicating that they are working properly. If they do not, see the troubleshooting section of the *3-D SPEX User's Guide.*

This Guide Bot will help you through the mines!

WHIPLASH™

3D Edition

In the near future, the world's top eight major car manufacturers hold a yearly competition to prove who has the best car. The event soon escalates into a no-holds-barred media circus. The world had never seen the likes of this since the days of the Roman gladiators—both tactics and driving have become extreme to say the least. Some drivers will use any method to win...even if the outcome is fatal.

This card provides short but complete instructions for setting up and playing Whiplash™ from Interplay™.
Plug

Minimum System:

- IBM™ PC compatible 486-DX2/66 or faster, 8 MB of RAM
- DOS 5.0 or later including MS DOS only mode of Windows® 95
- 2X CD-ROM
- VGA card and monitor
- 30 MB free hard disk space
- Parallel (printer) port

Recommended:

- Pentium™-class processor with at least 16 MB RAM
- SVGA color monitor that supports 100 Hz vertical refresh rate
- Video card that supports VESA 1.2 Bios in ROM (or VBE emulator)

To install:

1 Switch to MS-DOS. If running Windows 95, reboot in MS-DOS mode. If running Windows 3.x, exit to an MS-DOS prompt.

2 While in MS-DOS insert the Whiplash CD and type **D:** (or the appropriate drive letter) and press Enter to change to the CD drive.

3 Type **CD ** and press Enter.

4 Type **INSTALL** and press Enter. The installer guides you through the installation process.

5 If the 3-D SPEX are plugged into a parallel port other than LPT1, run the SETLCDLP utility as described in the *3-D SPEX User's Guide.*

Play

To play:

1 Change to the drive and directory where you installed Whiplash. If you installed it in the default location, type **C:** and press Enter, then type **CD\INTRPLAY\WHIPLASH** and press Enter.

2 Type **WHIPLASH** and press Enter.

Once a 3D image appears on the screen, the lenses of the glasses turn gray, indicating that they are working properly. If they do not, see the troubleshooting section of the *3-D SPEX User's Guide.*

For more game instructions, consult the online manual. To view the manual, type **D:** (or the appropriate letter for your CD-ROM drive) and press Enter. Type **CD ** and press Enter. Then type **MANUAL** and press Enter.
