WARNING

Epilepsy and Seizures: Some people may be predisposed to experience epileptic seizures or to lose consciousness momentarily while viewing certain kinds of flashing lights or patterns seen in some video or computer games. Players who have not had any previous seizures may still have an undetected seizure condition. If you or anyone in your family has experienced symptoms linked to such a condition (either a seizure or momentary loss of awareness), consult your physician before using these glasses or any computer games.
Children under 7: This product is not for use by children under seven years of age. Artificial stereo vision display may not be safe for very young children and may cause serious, permanent damage to their eyes.

In your parents' day, 3D meant a pair of red and blue cardboard glasses. But with 3-D SPEX™ you can expect a totally different experience.

From the moment you put on 3-D SPEX you're engulfed in a three-dimensional game field where wicked realism rules. You'll feel like you and your game are virtually one with real-life perspective and depth cues unavailable to the naked eye.

3-D SPEX features the industry's highest quality, liquid crystal based optical switches to deliver a pulse-quickenning, immersive experience of exciting new dimension.

Return to the black depths of treacherous alien mines in Descent™ II: Destination Quatzon by Interplay™, featuring all-new levels of outrageous destruction.

Fly your hovercraft through canyons, caves and fjords at incredible speeds in Slipstream 5000™ by Gremlin, the futuristic racing game with some of the most devious tracks imaginable.

Whiplash™ by Interplay™/Gremlin, gives you eight different cars and 16 tracks to test your racer's edge. Keep your pedal to the metal to conquer stomach-churning loops and turns.
