Acuris ClipModel™ Library Demonstration Disc

The 3DS and DXF directories contain examples of Acuris ClipModels in 3DS and DXF formats, respectively. Read the README.TXT files in each directory for more information on the files and Acuris ClipModels.

Acuris—Accurate 3D ClipModels for 3D Users
931 Hamilton Ave.
Menlo Park, CA 94025
(800) OK-ACURIS (800-652-2874)
or
(415) 329 1920

Acuris has a large selection of 3D ClipModels to suit your 3D needs. On this disc, we have included examples from each of our current 6 libraries. ACURISPR.TGA is a rendered Press Release image of Acuris ClipModels

Acuris also provides Custom ClipModel Services. We can create 3D models from physical objects or drawings. Acuris has exstensive 3D modeling expertise to meet your 3D needs. Some of the commonly requested services are:

1. Create Accurate 3D Models from Drawings
2. Digitize Physical Objects using 3D digitizer or Laser Scanner
3. Take images to slides or animations to video
4. Custom translations between different 3D file formats

Call us with your 3D needs!
