How to Avoid Becoming a Vampire

Prevention is always better than a cure... so make sure you or any of your friends or family do not become vampires by following these simple rules...

The following circumstances of death shall be avoided:

Dying excommunicate

Dying unbaptized

Dying apostate

Dying while recovering from having been a werewolf - although this can be avoided by isolation for two cycles of the moon, but watch out for sprouting hair or canines.

Dying while under a curse from your parents

Committing suicide

Dying from a fall from the left side of your wagon

The following circumstances of birth shall be avoided:

Being born with a tooth erupted

Being born with red hair

Being born the seventh son of a seventh son

Being born the child of a mother who has slept with demons (one to watch out for)

Being born with the placenta still over the head

I hope you've been paying close attention... and as long as you avoid being promiscuous, being bitten by a vampire, and unknowingly drinking the blood of a vampire, you have nothing to fear!
